Sun and Second Sun in the middle

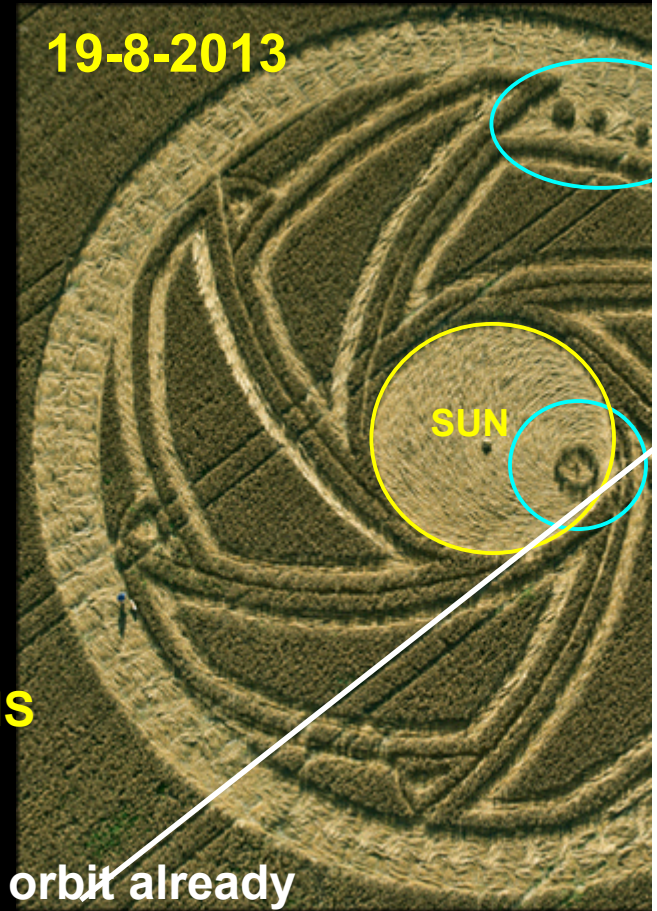

21-7-2018

19-8-2013

white line: ecliptic plane lying on the 2 SUNS

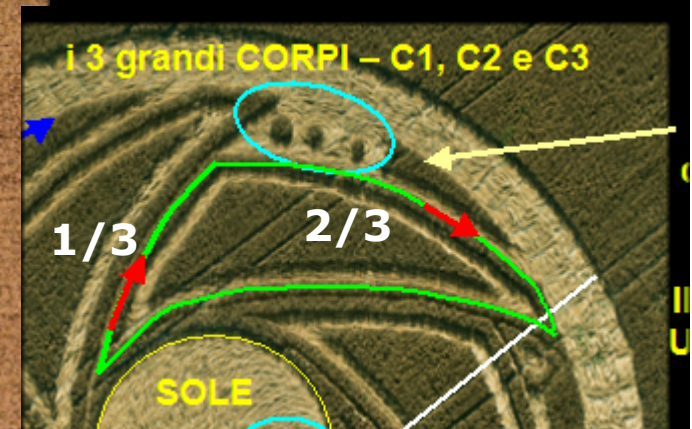

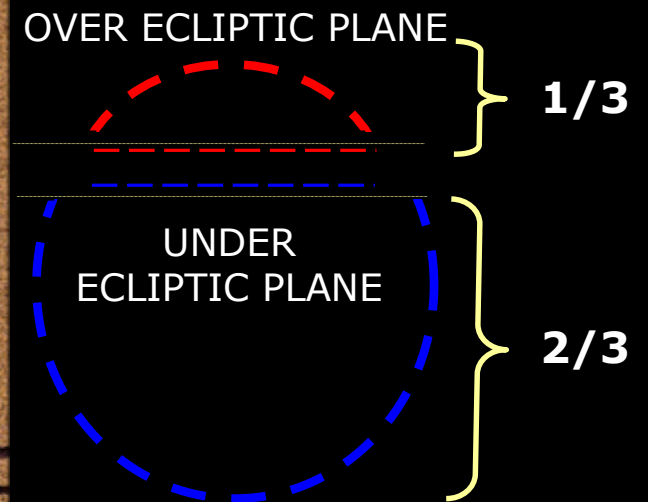

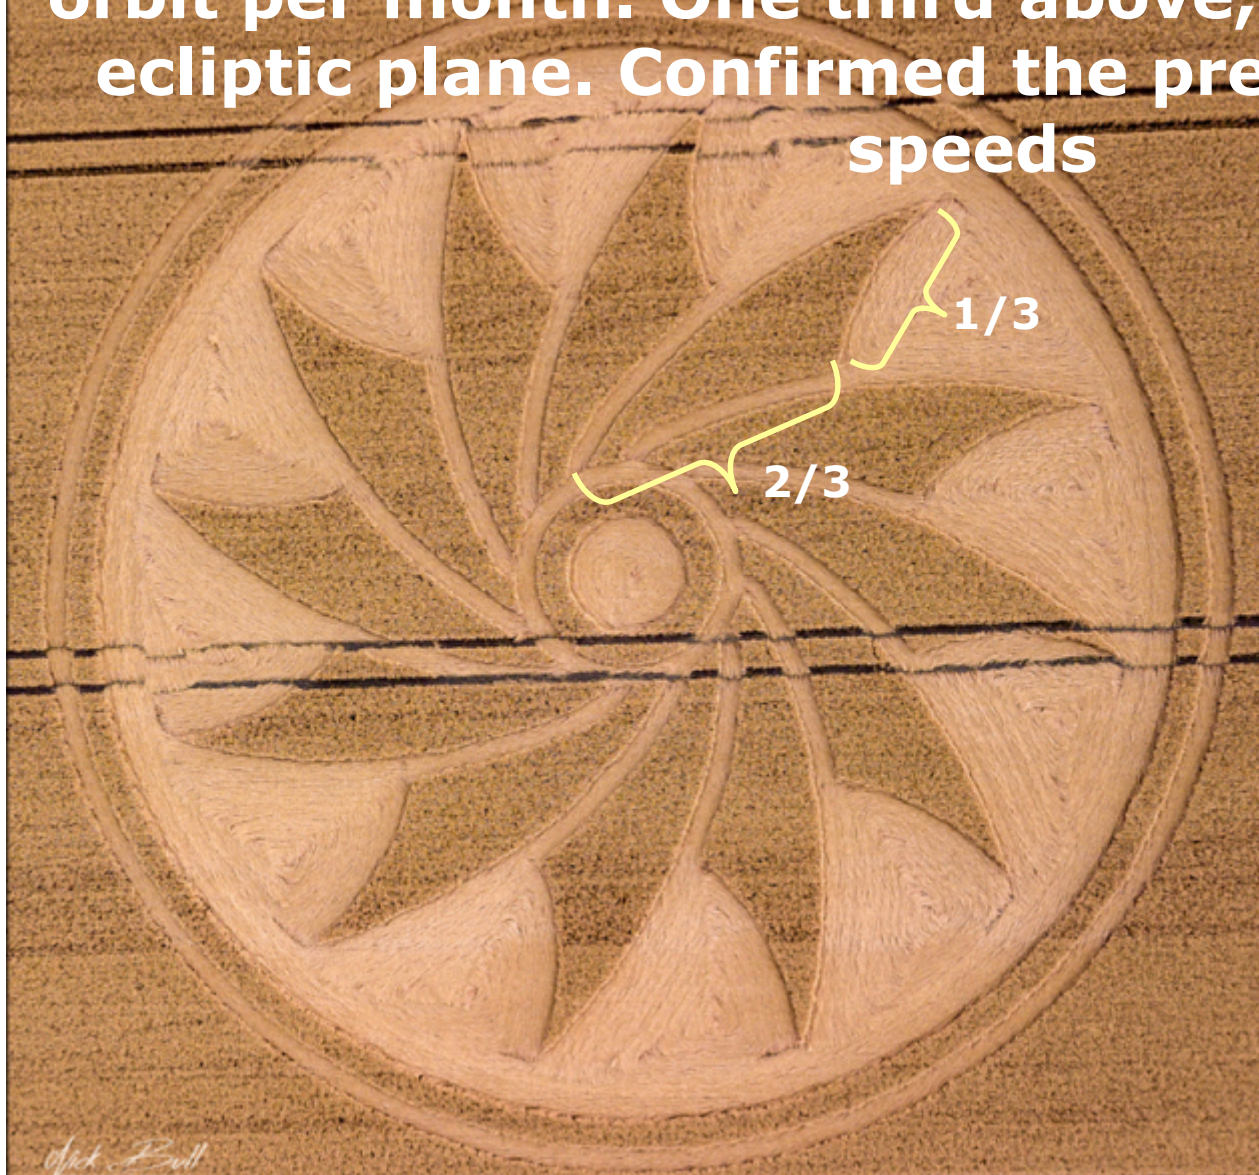

The blades recall the blades of the  
19-8-2013 CROP CIRCLE: THE ASYMMETRIC Second Sun orbit already  
explained, but now we will have an orbit per month

*ofek Bull*

# 21-7-2018 crop circle

Starting from 21-7-2018 to 21-7-2019 roughly an orbit per month. One third above, 2 third below the ecliptic plane. Confirmed the previous calculated speeds

*Opick Bull*

**crop circle del 8-7-2018**  
**Sun and Second Sun: 3 final phases**

1st PART

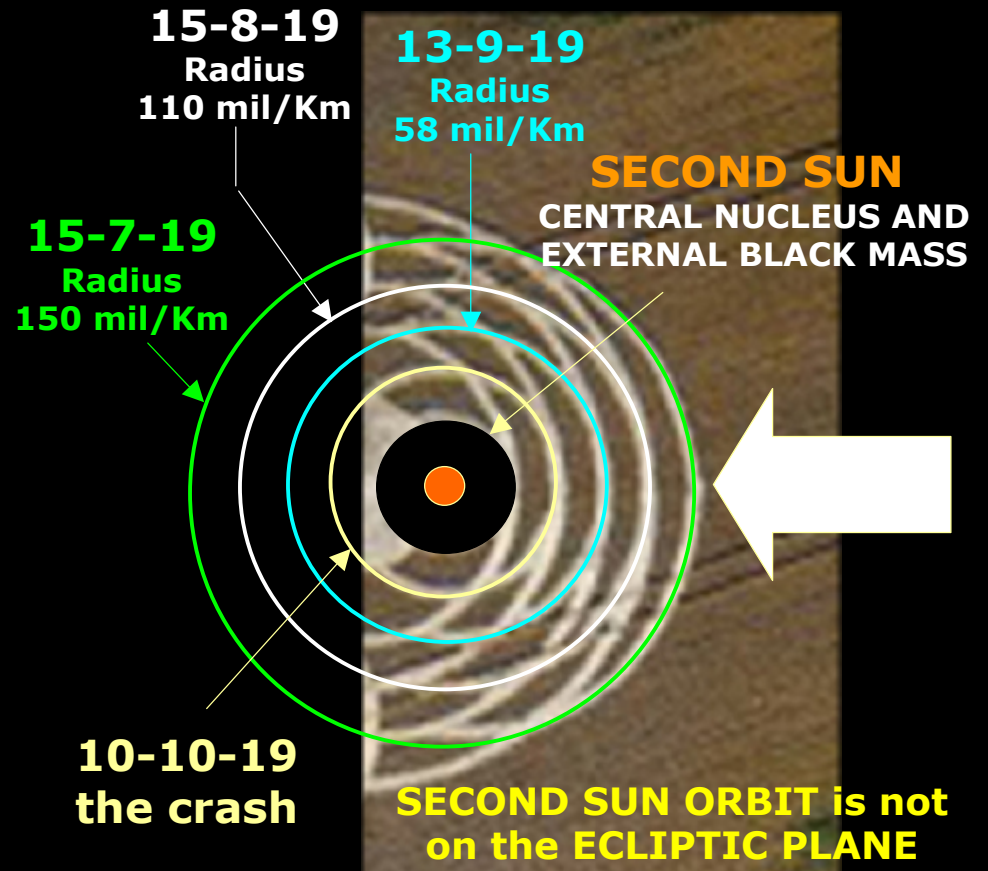

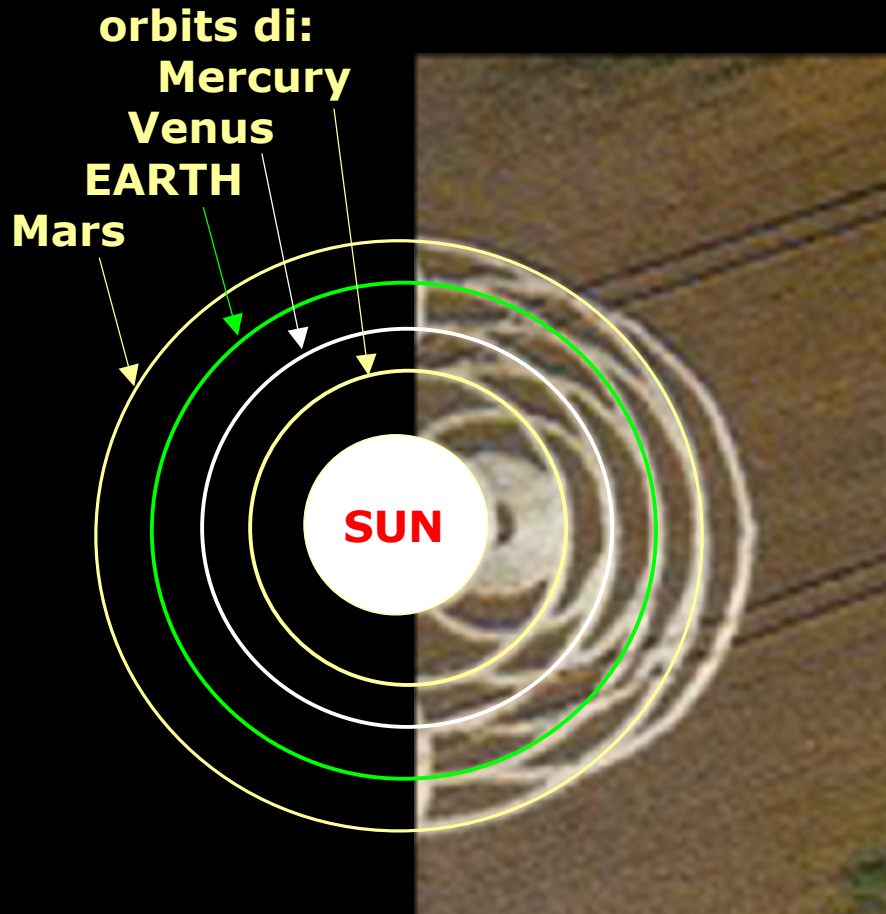

# SECOND SUN approaching in the last 3 turns

1 – its orbit diminish

2 – gets always near to the SUN

INTERNAL Solar System seen from the above.

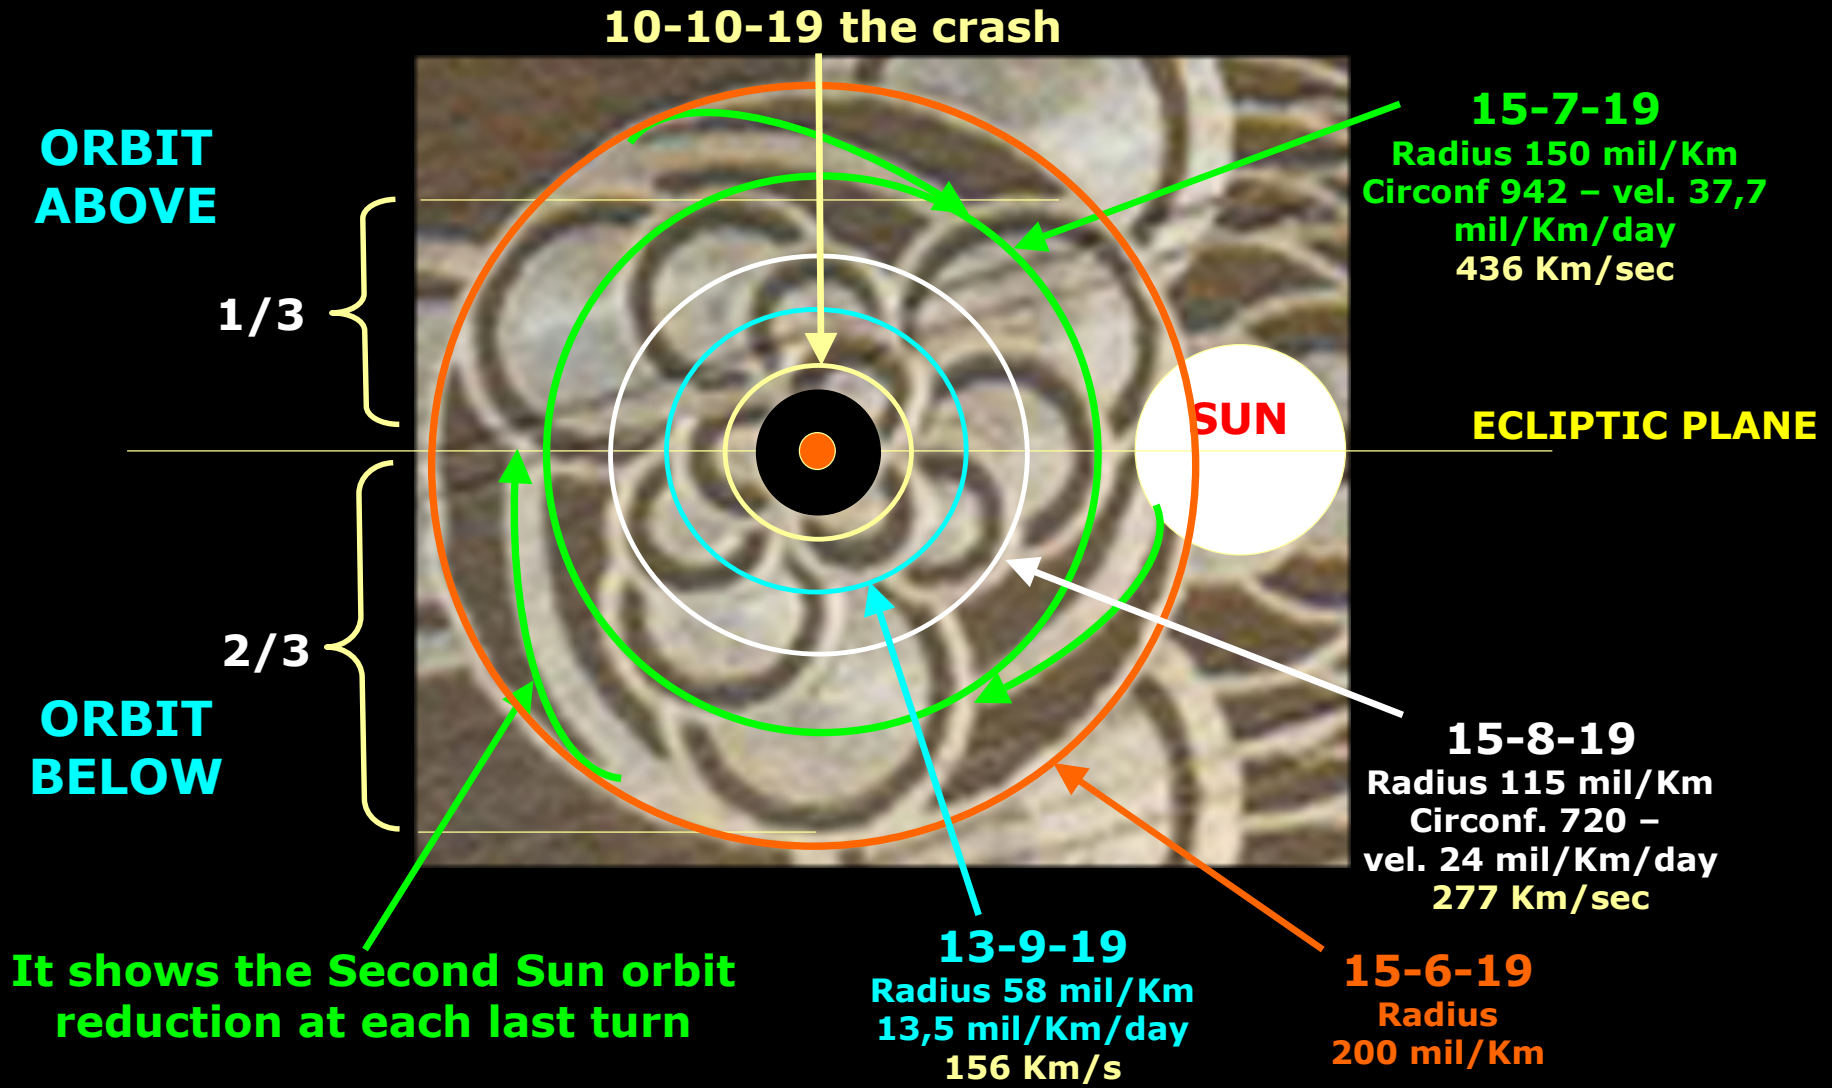

Visualization of SECOND SUN approaching our SUN:  
**ATTENTION:** it shows the orbit dimensions not the VERTICAL POSITION

2nd PART

# SECOND SUN approaching in the last 3 turns

- 1 – its orbit diminish together with radial speed
- 2 – gets near the SUN with 1/3 ORBIT above ecliptic plane

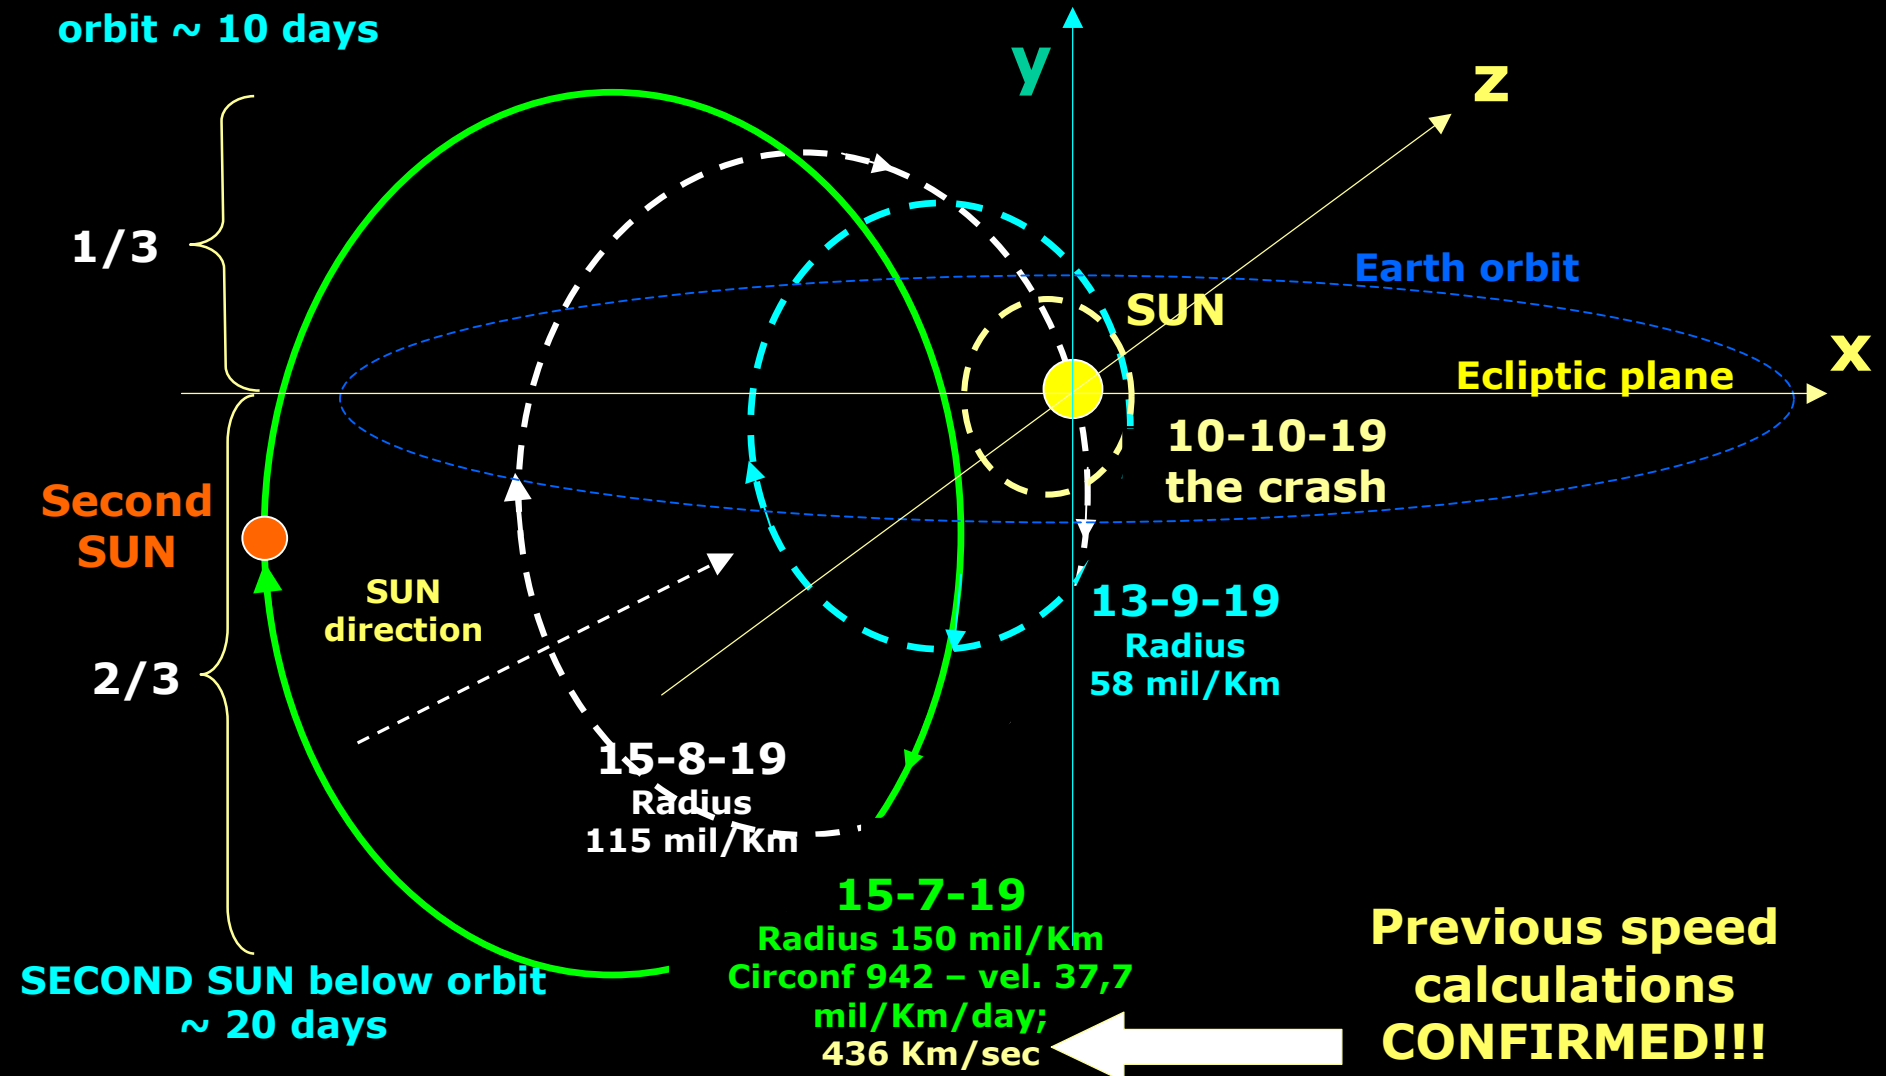

3rd PART

By interconnecting the 2 previous projections we get the real Orbits towards the SUN. Prospective view. Everything matches to the previous CROP CIRCLE readings. **Second Sun orbit dimensions must be seen only vertical to the Ecliptic plane.**

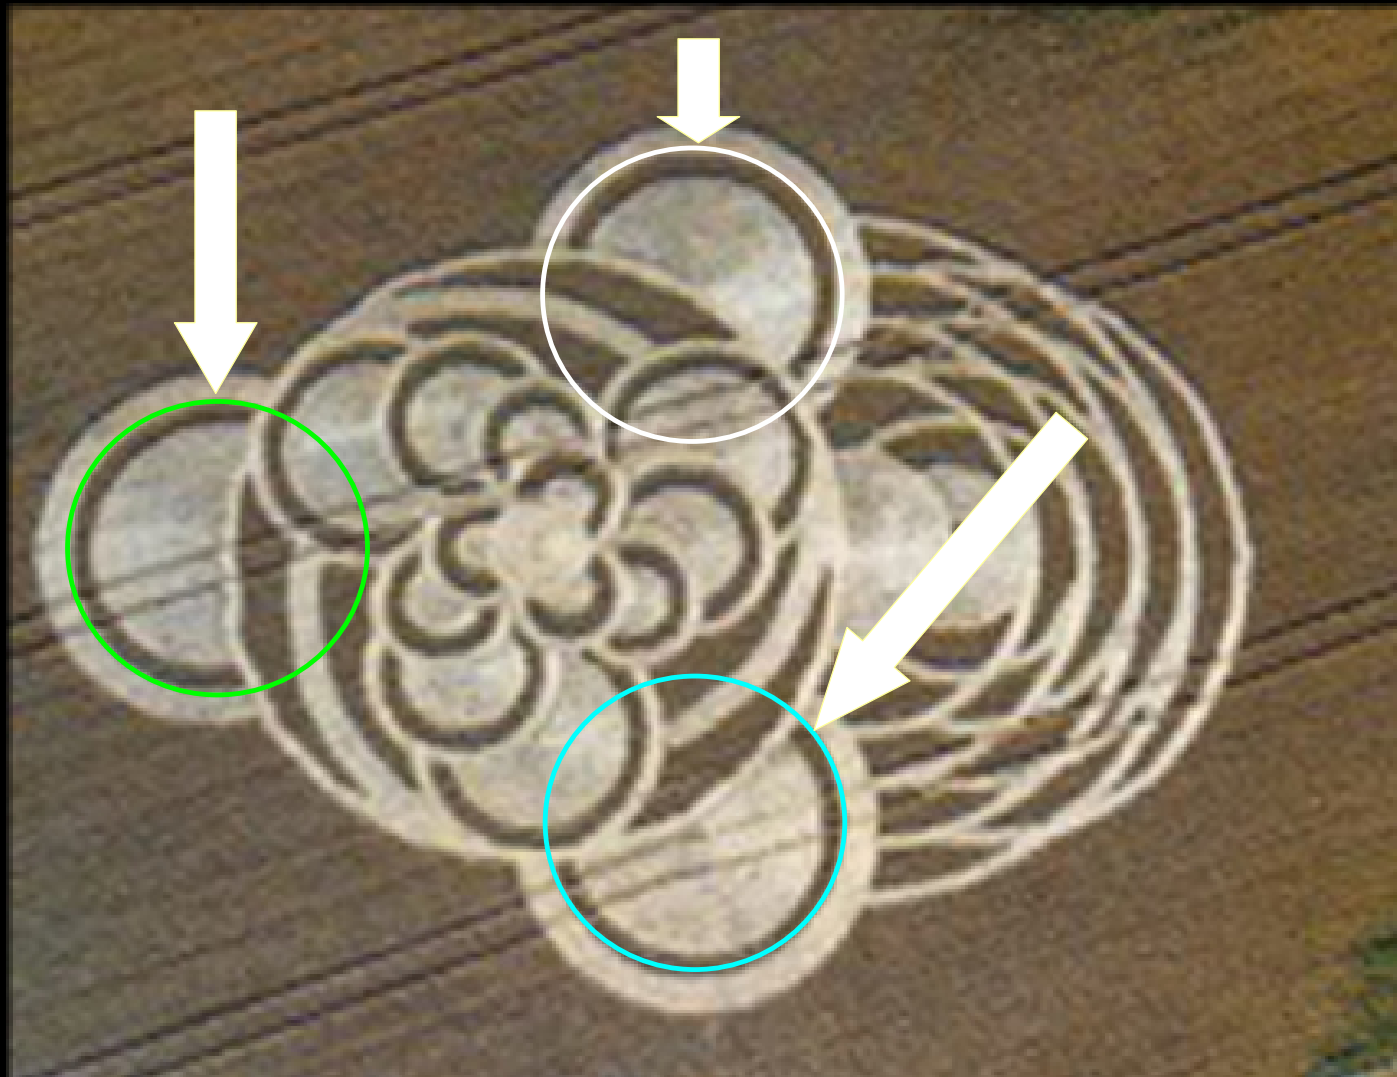

SECOND SUN above orbit ~ 10 days

**crop circle del 8-7-2018**

**SUN & SECOND SUN: the last 3 final phases**

**This means: the last 3 orbits**

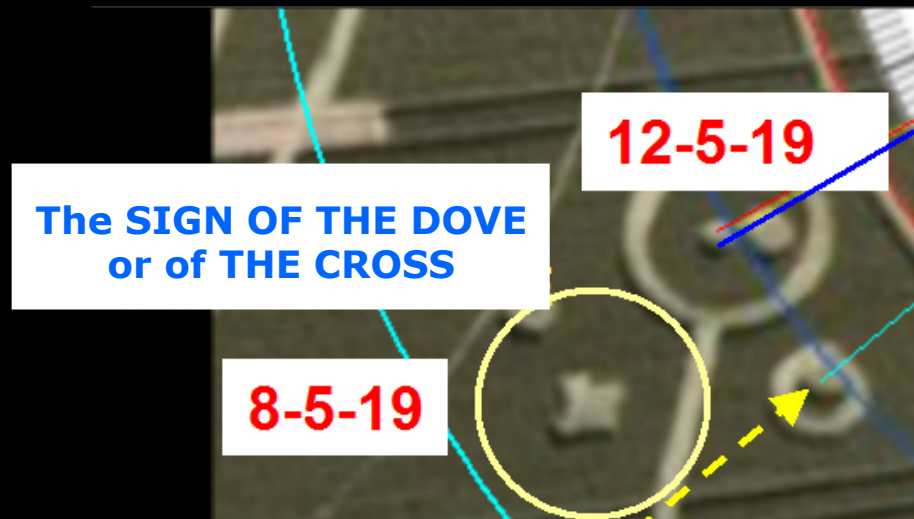

## 4th PART

**The actual positions of the SECOND SUN seen from above the ecliptic in the last 6 months They will be shown in the next slides**

### Matthew 24

**[29] "Immediately after the tribulation of those days, the sun will be darkened, and the moon will not give its light, and the stars will fall from the sky, and the powers of the heavens will be shaken. [30] And then the sign of the Son of Man will appear in heaven, and all the tribes of the earth will mourn, and they will see the Son of Man coming upon the clouds of heaven with power and great glory.**

## **SECOND SUN**

**Before going ahead, let's see what's  
already happened and which type of  
“END” is going to come**

**ALL PREVIOUS CONCERNINGS  
CONFIRMED**

# Here the orbits from January 2017 to March 2018

**SECOND SUN** coming from URAN position (in a rotatory orbit above and below the ecliptic plane) has reached the internal solar system (Mercury, Venus, EARTH and Mars)  
Coming from **Direction 1**.

When reached "Mars orbit", attracted by the SUN mass its direction has fold to **Direction 2**  
(26-6-17)

See positions given by the EYES VIEWINGS

**First rotation available  $\sim 50$  days. diminishing on each "revolution" round the SUN. Prospective view**

**SECOND SUN

**SUN**

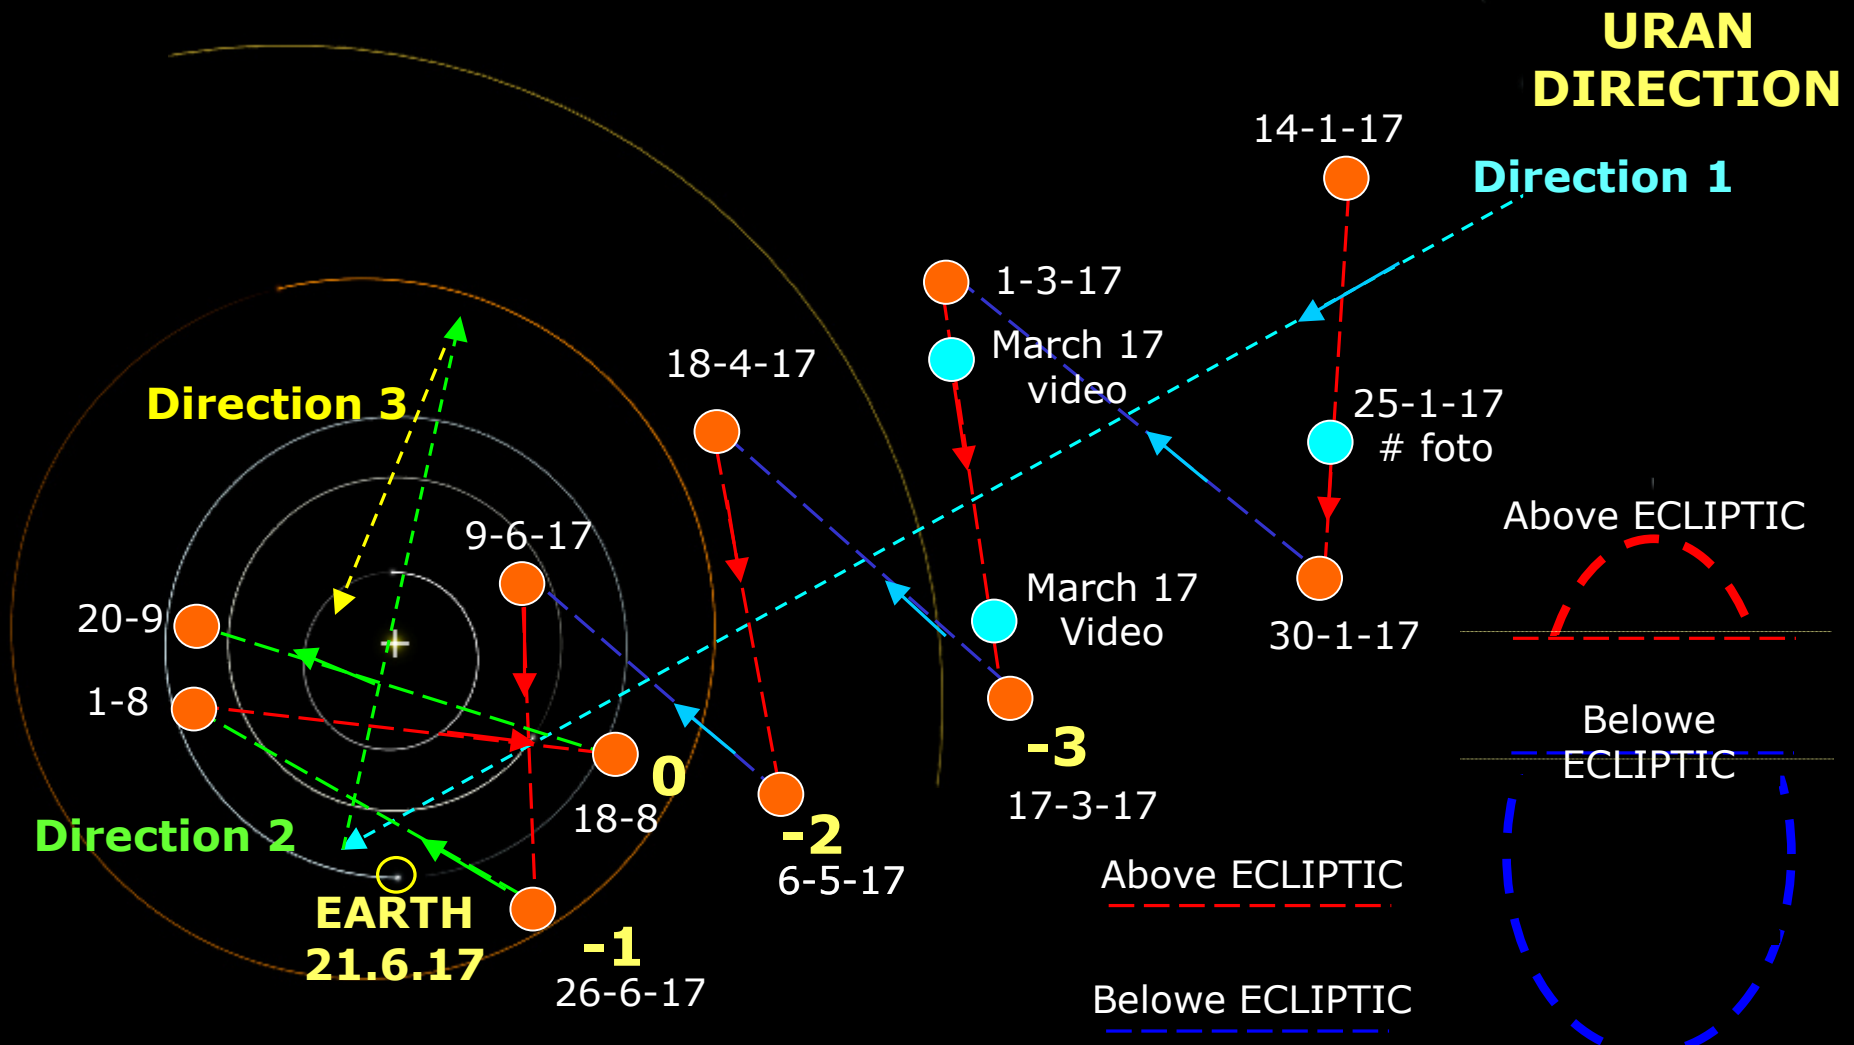

**Second  
SUN**

**SECOND SUN  
2/3 orbit  
below  
 $\sim 33$  day**

**From Uran direction**

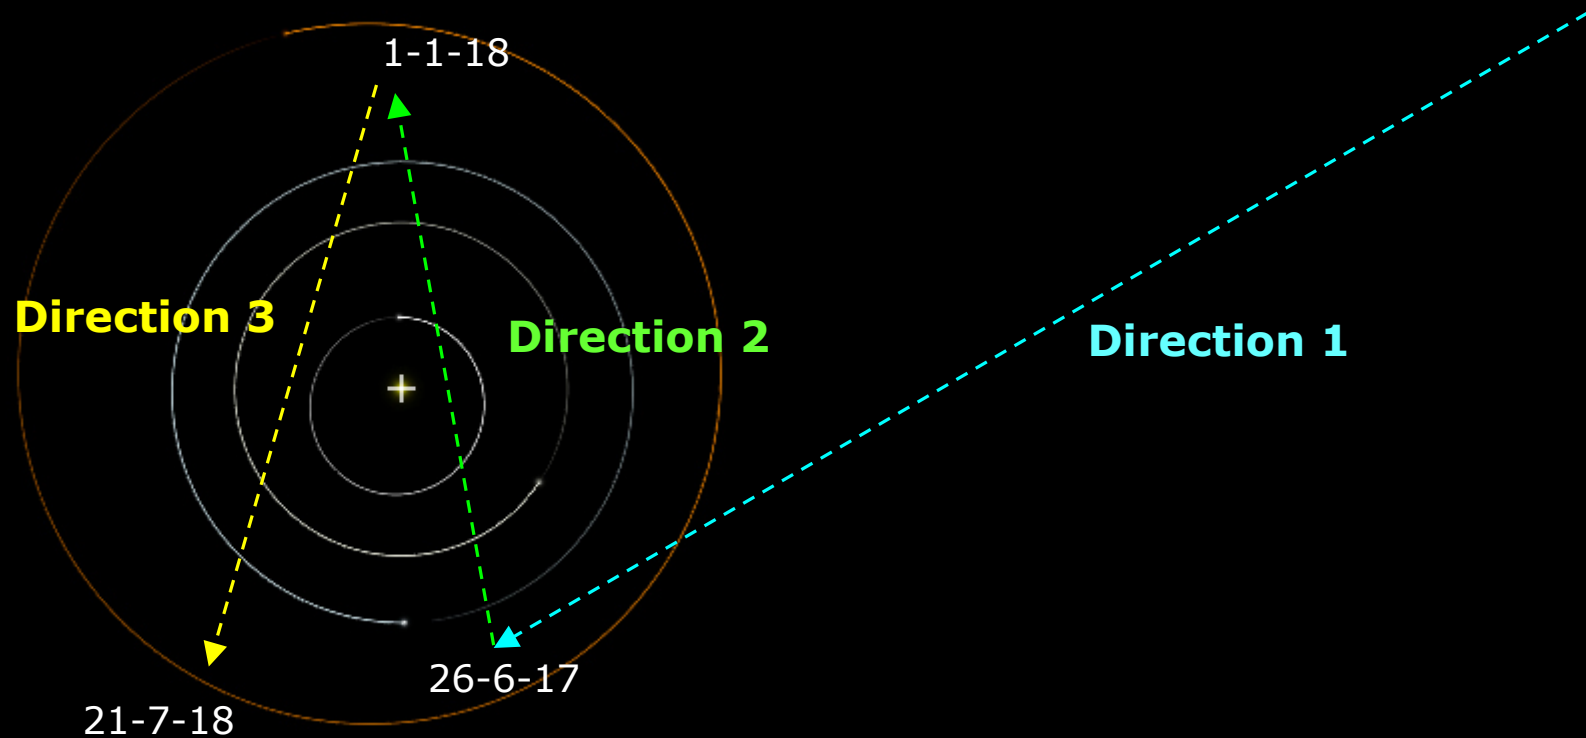

**Position planets at 21-6-2017 and the vertical elliptical / circular orbit of SECOND SUN. VIEW from ABOVE the ecliptic, approaching from Uranus. IMPORTANT NOTE that from **Direction 1**, the attraction of our SUN from 26-6-17 has imposed **Direction 2** and then **Direction 3**. Everything is confirmed by the surveys, photos and videos over time**

**"Direction 1 and Direction 2" have all been confirmed by the sightings from the NASA STEREO Ahead and LASCO satellites and from the real videos of amateur astronomers, of which you can find all the infos on this site and in part in this file.**

**From 1 January 2018 Once arrived on the opposite side, Second Sun has recast again from the SUN going to the opposite side again, this seen on January 7 in front of the satellite, like a spring that oscillates and falls exponentially and returns to the SUN in Direction 3**

**the crash has been avoided until now due to the fact that the CIRCULAR orbit of S.S. is perpendicular (orthogonal) to the plane of the ecliptic and still passes away from the SUN and the orbital velocity is high.**

**Furthermore, Direction 3 still goes to the left due to the speed acquired in Direction 1**

**Physically this can not last forever, as the forward / backward oscillation worsens and decreases in speed and distance, just like a spring or a pendulum**

**This will cause the collapse against ours  
SUN**

**Now we get the next orbits, due to the strong attraction of our SUN and WHAT HAS BEEN PREVIOUSLY SEEN BETWEEN Direction 1, Direction 2 and Direction 3 still will continue**

**S.S. will reverse the course again 3 times**

**And it will return to the SUN position by**

**Directions: 4, 5 and 6**

SECOND SUN FROM  
EARTH AMATOR  
CAMERA

**moments. Shot of Julia.**

**It is not clear whether it is the CENTRAL BODY of the SECOND SUN. We know that in addition to it there are at least 3 other bodies of smaller size, detached pieces, and 5 planets/satellites. This could be one of the BIG bodies (C1-C2 or C3).**

**The celestial bodies of SECOND SUN are different  
and of different nature  
CENTRAL BODY rotates vertically +  
OTHER 3 very fast BODIES taken from the  
satellites in orbit have 5 satellites in tow  
Also lot of meteor showers  
All the concerning were correct**

**Analizing data we have in hand**

**Given the angle with which the S.S. Has passed in front of the  
STEREO A satellite**

**A SINGLE ORBIT SCENARIO is PRESUPPOSED**

**ELLIPTICAL / CIRCULAR / VERTICAL**

**orbits – REDUCED ORBIT DIAMETER - focus towards SUN -  
FORWARD and RETURN -**

**SCENTED ORBIT and from the crop circles of 2018**

**The time of the ORBIT IS DECREASING (one orbit per month  
instead of 48-54 days) which means that the size of the orbit  
decreases and the centrifugal force is decreasing also and the  
collapse against our SUN is next**

**Here follows the PREVIOUS DATA ANALYSIS**

**First deductions were....**

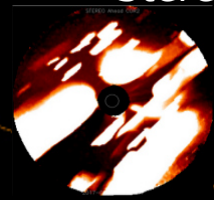

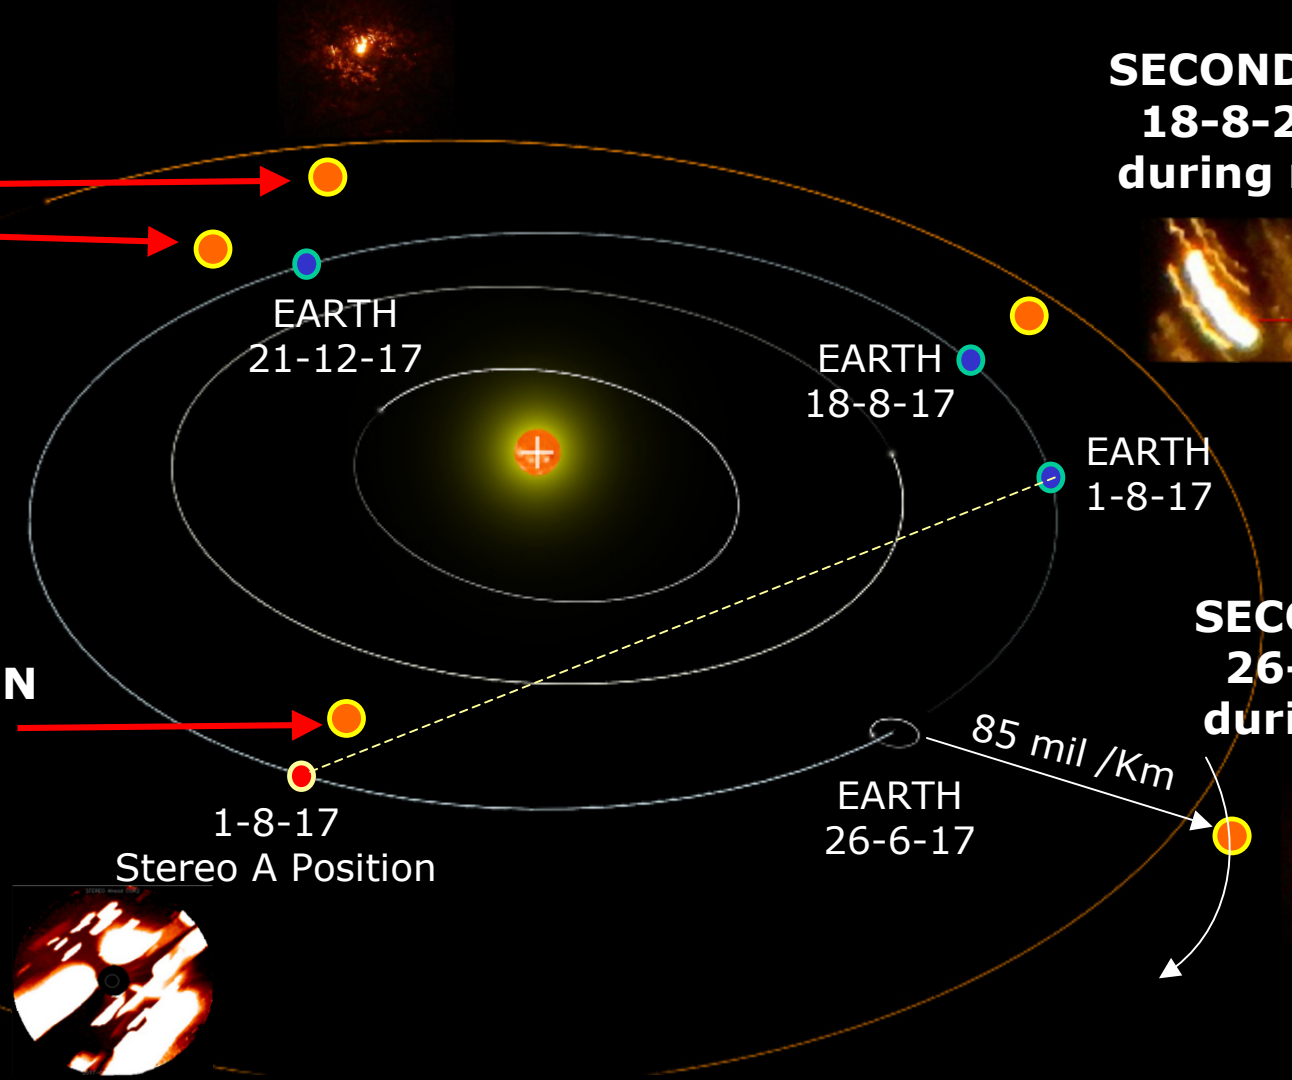

**SECOND SUN passage on 26-6-17, 18-8-2017 and 21-12-2017 at night, so behind the EARTH. 1-8-17 in front of STEREO A satellite, and 1-1-2018 at night in Colombia**

**SECOND SUN during night**  
**21-12-2017**  
**1-1-18**

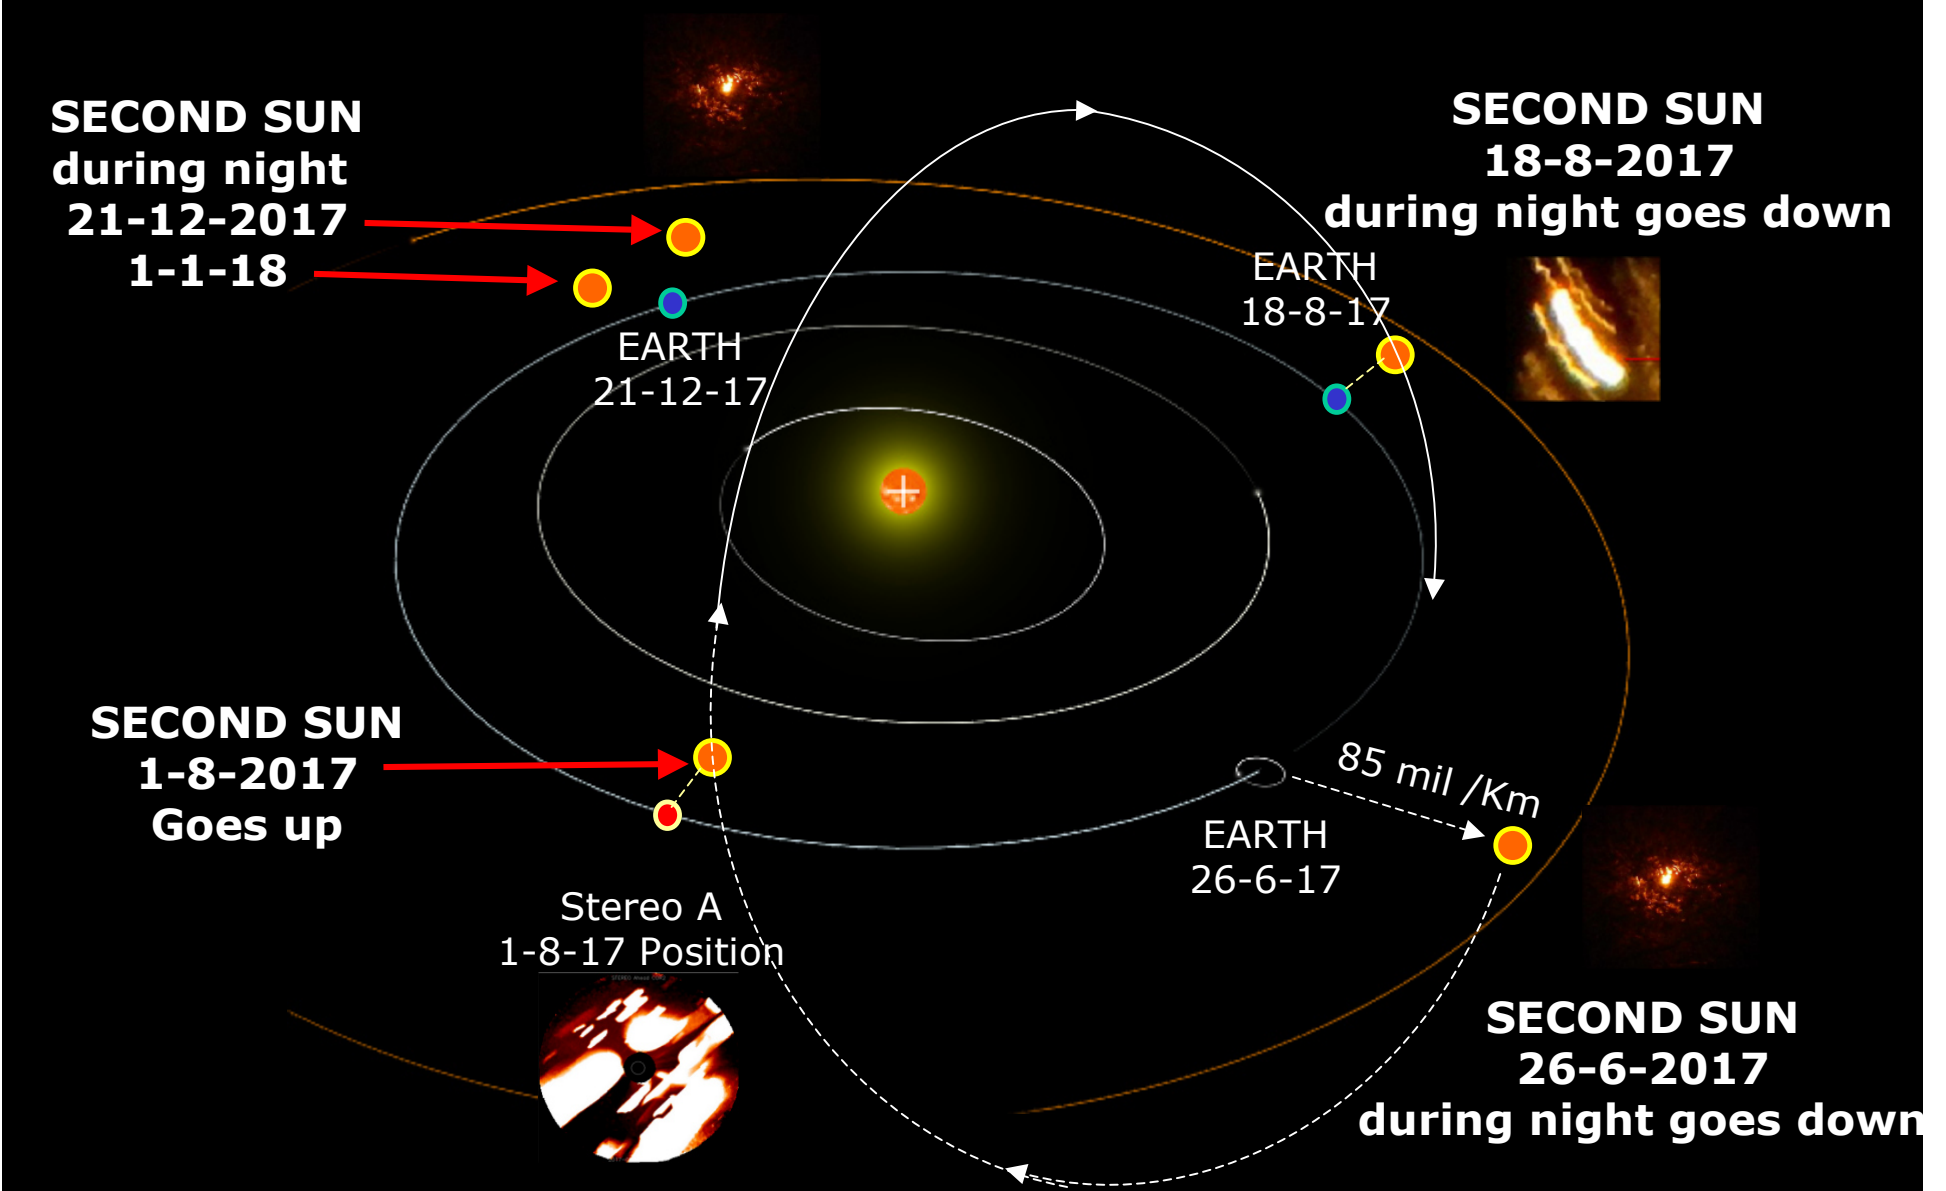

**SECOND SUN**  
**18-8-2017**  
**during night**

**SECOND SUN**  
**1-8-2017**

**SECOND SUN**  
**26-6-2017**  
**during night**

**SECOND SUN passage on 26-6-17, 18-8-2017 and 21-12-2017 during night, so behind the EARTH. 1-8-17 in front of STEREO A**

**Speaking about the CENTRAL NUCLEUS of the SECOND SUN  
Not having other photos and shooting, it does not mean that  
there have not been passages in subsequent months.**

**Two steps are significant:**

**26-6-17 SECOND SUN descends to the horizon**

**1-8-17 SECOND SUN rises upwards**

**In 36 days it completes the low part of the orbit.**

**Then in 18 days**

**from 1-8-17 to 18-8-17 performs the upper part of the orbit.**

**It means that the orbit is cleaved under the 2/3 ecliptic.**

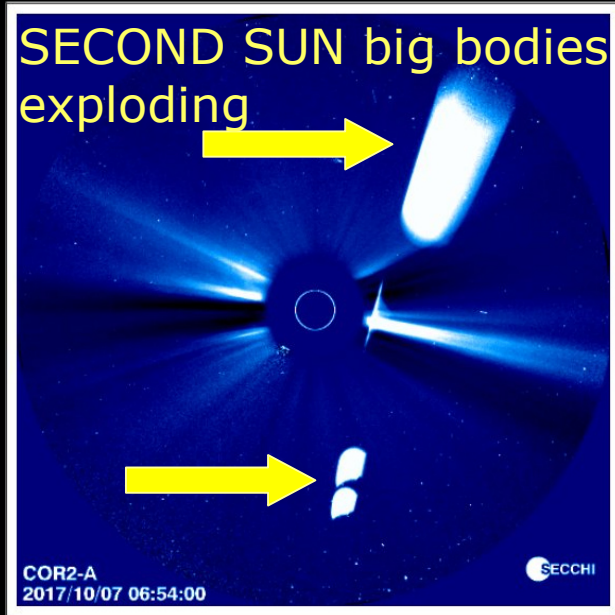

**TOTAL vertical orbital time  $36 + 18 = 54$  day approx**

**Confirm 3 things:**

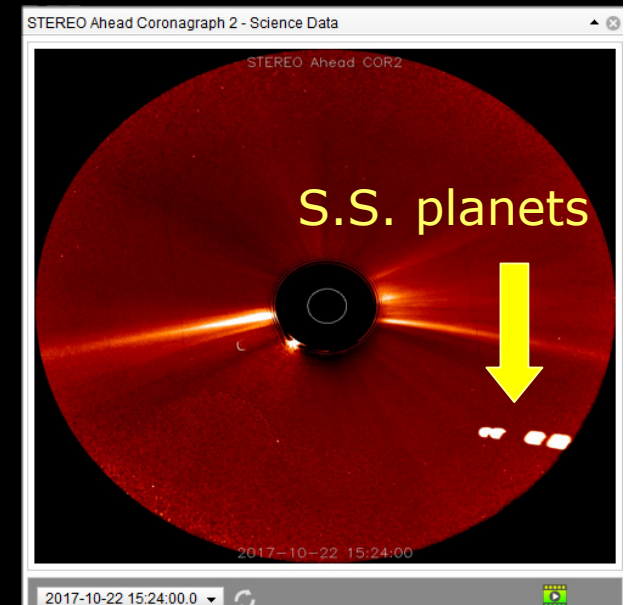

- 1. it is mainly seen from the southern hemisphere. Nasa, in fact, starts with his SOFIA plane to take it back to New Zealand on July 13th, 2017**
- 2 . all the crop circles that refer to its orbit indicate the same thing. They are designed keeping tractor traces apart from the central SUN**
- 3. In the northern hemisphere, sightings are always low in the sky and for a very short time**

**Moreover, from FEBRUARY 2017 we have PASSAGES of the SECOND SUN FAST BODIES (we call them C1, C2 and C3) and its planets / satellites**

**The planets of the 3 BIG bodies of the S.S. they are resumed in steps. Each photo is made up of 9 superimposed photo shots taken in 10 minutes. In the single photo they appear as a sequence of shapes or points depending on the speed and distance at that moment from the satellite.**  
**the BIG SECOND SUN BODIES leave a trail when the active central core explodes. It is probable that there will be 3 BODIES of this kind. So the CROP CIRCLES shows**

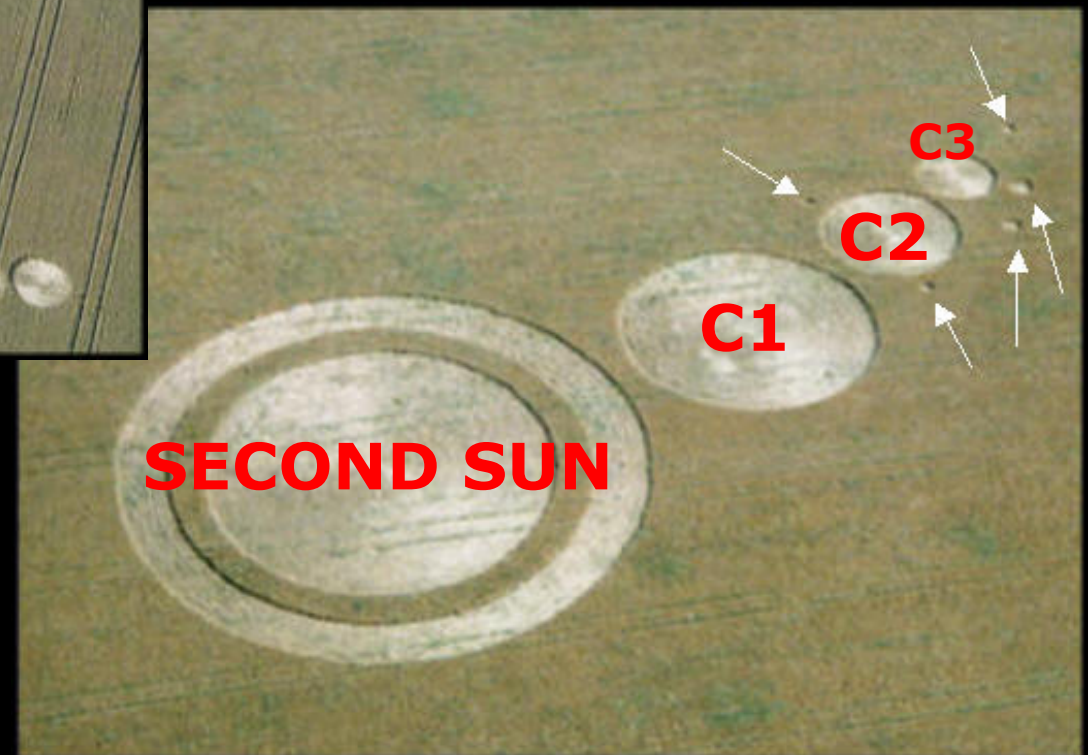

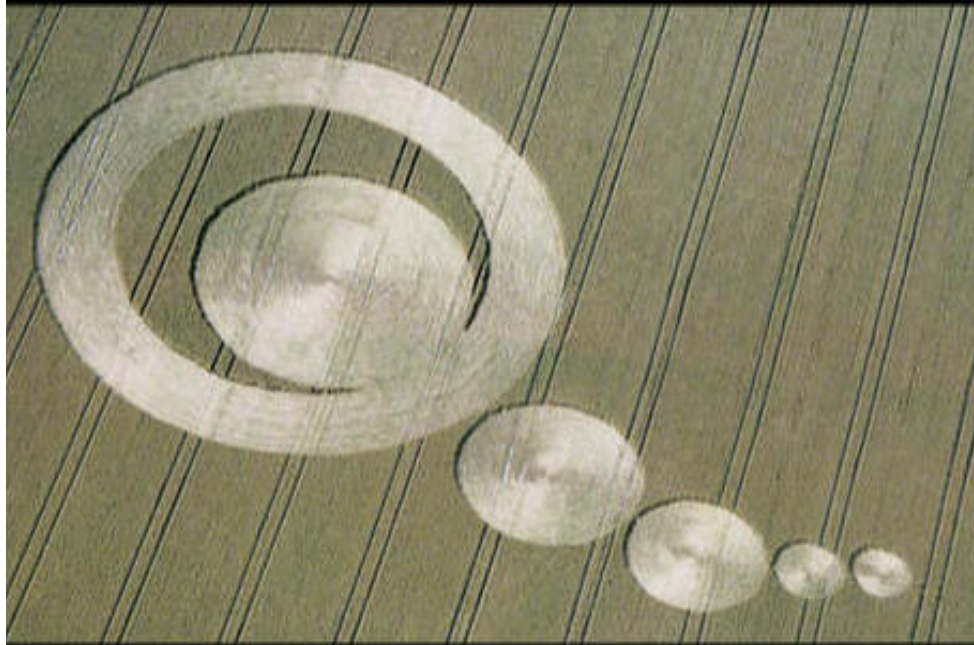

It seems that every pic is taken in a single click of the 9 that are performed. Each shot has an exposure time of 17/24 seconds

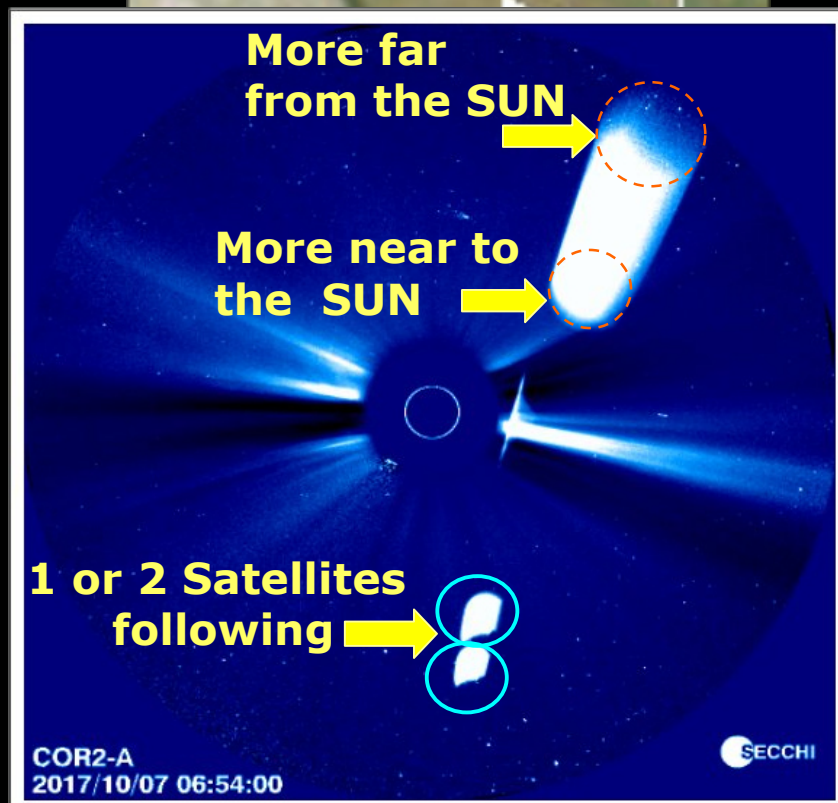

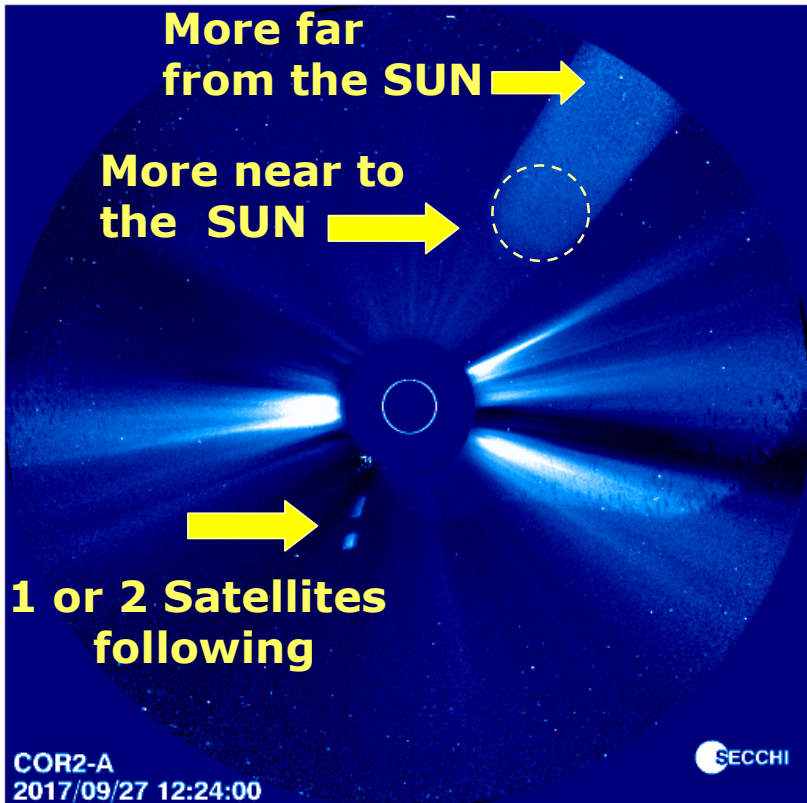

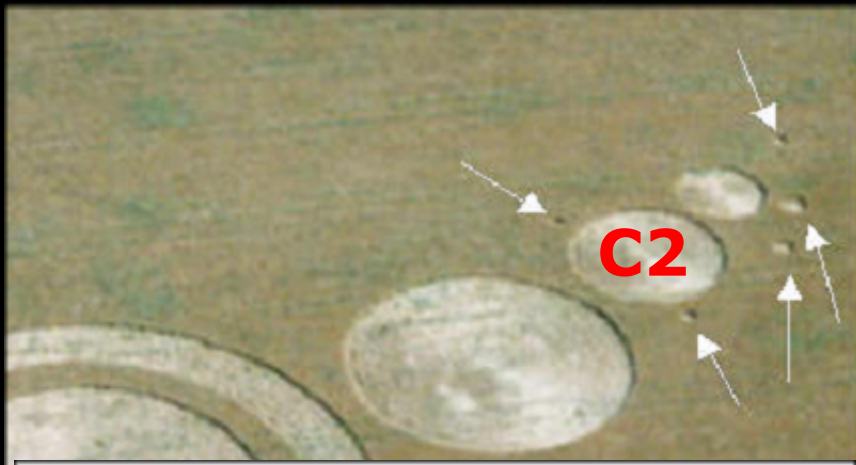

## SECOND SUN 3 BIG BODIES

24-7-1997 CROP circle - non-random date. The BIG BODIES were 4, but now they are only 3 and with 5 satellites following

# BIG BODY: C2 and its 2 satellites 27-9-17 and 7-10-17 STEREO A passages

**The crash there will be**  
**There will be no hero to stop him**  
**There will be no space or military body that**  
**can stop God's wrath. You have always**  
**believed in lies, in fiction everything is**  
**possible. In the reality of GOD, fiction DOES**  
**NOT EXIST**

## **The crash on EARTH will be there**

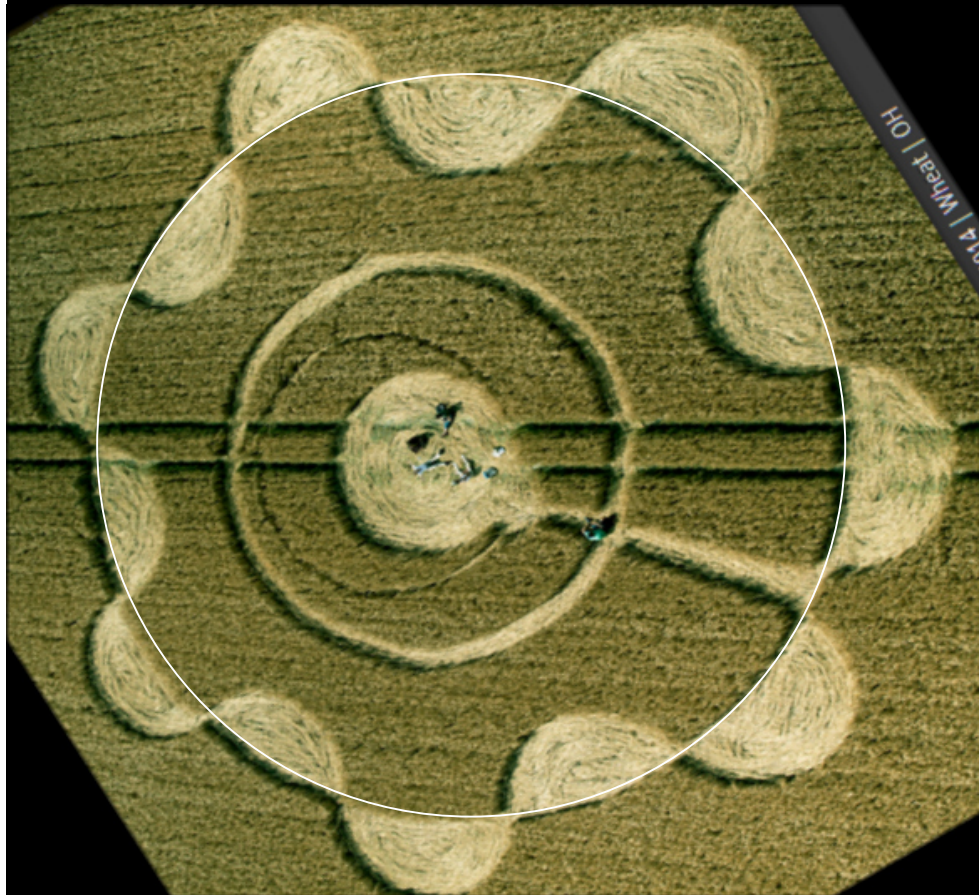

**A meteor will fall on the EARTH and everything will subsist. It will be a disaster, much worse than a war. Many things will be deleted. And this will be one of the signs ... .. You will have tragic moments.**

**many stones will fall. And many men will perish. An nation will disappear ... a big nation. A country will be forever erased from geographical maps ... And with it, history, wealth and men will be dragged through the mud.**

**From the wrath of God the men of science will not be spared, but the men of heart.**

**(Saint Padre Pio da Petralcina)**

# 29-7-2014 CROP CIRCLE

## 29-7-2014 CROP: needs 2 readings

First reference shows the Second Sun that is going to hit our SUN from below the Ecliptic plane. Indication of Sun and Second Sun symbols as usually used by Angels: 2 uncentered circles about 0,6 ratio

# 29-7-2014 CROP: needs 2 readings

Second reference: Second Sun orbits above and below the ECLIPTIC PLANE for 6,5 TIMES

# Giving reference also to other celestial bodies

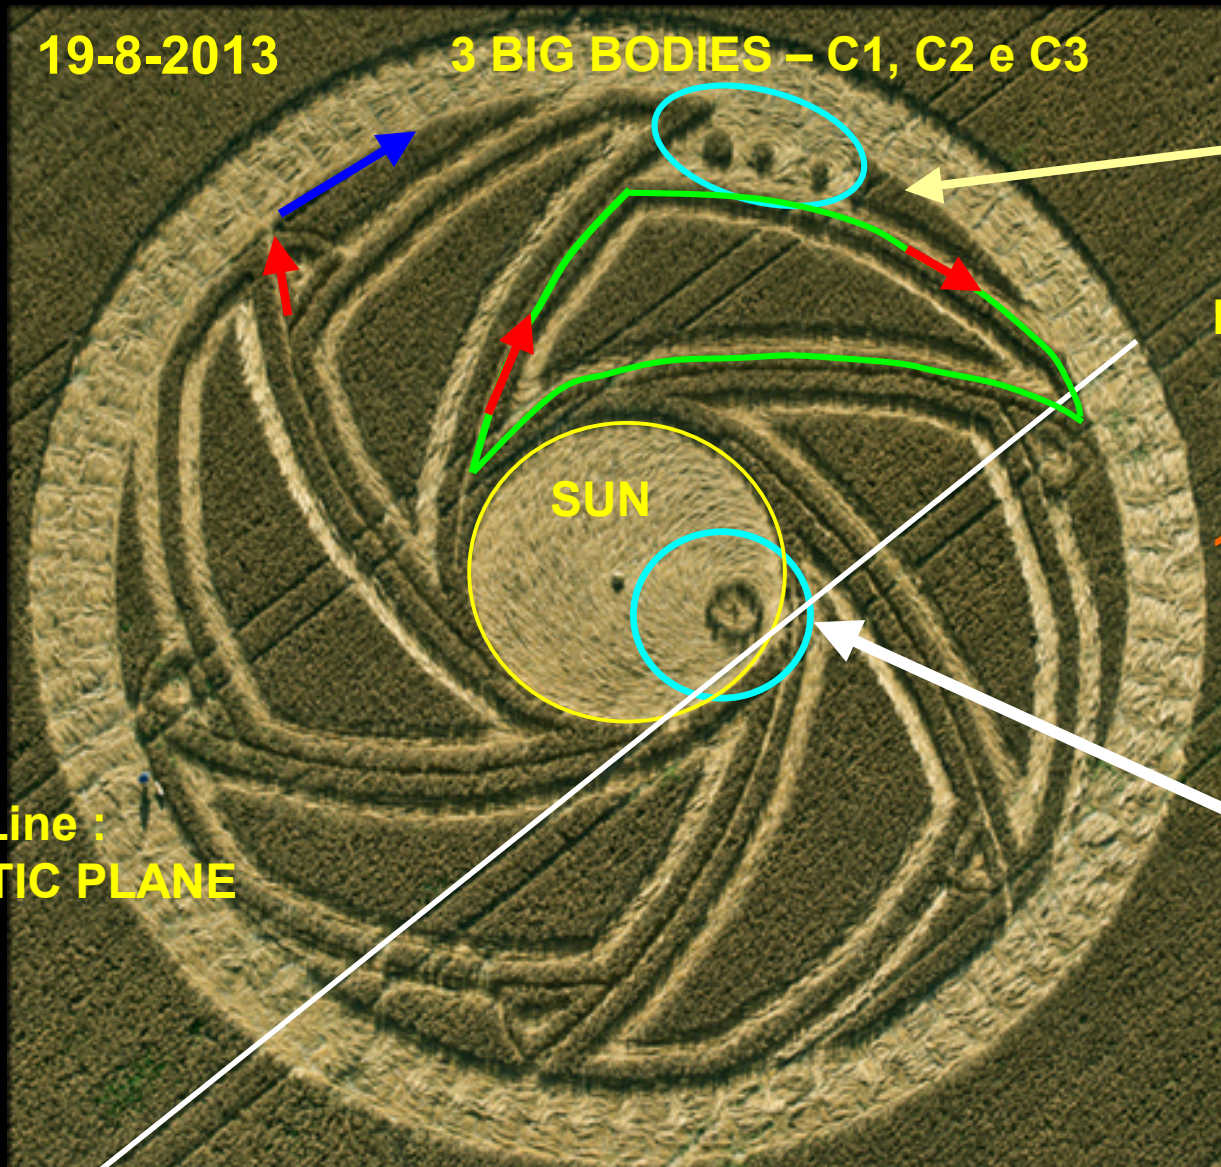

The SPIRAL that CLOSE to the CENTER

WHITE LINE: ECLIPTIC PLANE

19-8-2013

3 BIG BODIES – C1, C2 e C3

The TAIL left from the 3 great bodies

In external FASTEST orbit ALSO INDICATES

A REFERENCE: on 19-8 S.S. goes below the ecliptic plane

white Line : ECLIPTIC PLANE

S.S. central body

The SPIRAL DIAPHRAM that closes to the center indicates 6 PASSAGES up and down, off center of about 2/3. The GREEN triangle reconfirms the passage " ABOVE "and" UNDER "the ECLIPTIC (long and short). 3 large bodies then accompany the CENTRAL BODY of the SECOND SUN outside

## MDM message

**13 July 2012 – After the world war will come the famine and then the plagues. Yet, prayer can mitigate the chastisement (partial)**

Many will stay in the dark. Many will convert instantly. If most of humanity repents, then the Great Tribulation will not be as difficult. The World War will not have the same impact if the majority of people repent after The Warning.

. After the world war will come the famine and then the plagues. Yet, prayer can mitigate the chastisement

**This sentence:** “The World War will not have the same impact if the majority of people repent after The Warning. it would mean that the Warning should be before the beginning of the 3rd world war or in any case around its beginning.

**We are not far from**

**See alla MDM MESSAGES**

**13 July 2012** – After the world war will come the famine and then the plagues. Yet, prayer can mitigate the chastisement  
**(partial)**

Many will stay in the dark. Many will convert instantly. If most of humanity repents, then the Great Tribulation will not be as difficult. **The World War will not have the same impact if the majority of people repent after The Warning.**

. After the world war will come the famine and then the plagues. Yet, prayer can mitigate the chastisement

**it would mean that WORLD WAR should be short and that the wounds are all that predicted in the Apocalypse and from the crop circles.**

**1 - TILTING OF THE TERRESTRIAL AXIS**

**2 - OUT OF ORBIT**

**3 - METEORITE WHICH PLANTS with dramatic consequences**

**25 DOTS  
20-8-2017 + 25 = 14-9-2017  
The TILT  
THE WARNING**

**20-8-2008**

**The tendency of the movements of the SECOND SUN and its celestial bodies, from Direction 3, 4, and 5 to then in the future 6 seems to be a SPIRAL that tightens both in height and in width, becoming more circular rather than elliptic, and increase its speed towards the center accordingly.**

**The spiral at the end of each Direction 3/4 - 4/5, etc. OSCILLATES to the RIGHT and LEFT with respect to the SUN as if it were a SPRING swing, trying to self-center on the SUN. This depends on the INGENS of the masses and the FORCES.**

**Speaking instead of speed, it is easy to think that if the S.S. rotates on its orbit at a speed of about 450 Km / s, if its celestial body rotates around him 10 times for each orbit, its relative velocity to the EARTH becomes 10 times greater**

$$450 \times 10 = 4500 \text{ Km / s}$$

**But it seems that, from the disappearances of the recordings from the satellite, the rotations are much more, so that it is easy to get closer to the calculated 10x higher speeds.**

# What the other missing recordings mean - just one example of the big body C1

When the SECOND SUN transits above or below the ecliptic, the other 3 large bodies (only one visualized) + satellites, still pass on the ecliptic plane intersecting ALSO the view of STEREO A and LASCO C2 / 3. Given their very high orbital velocity, the steps can be multiple. Hence the cancellation of hours of recordings

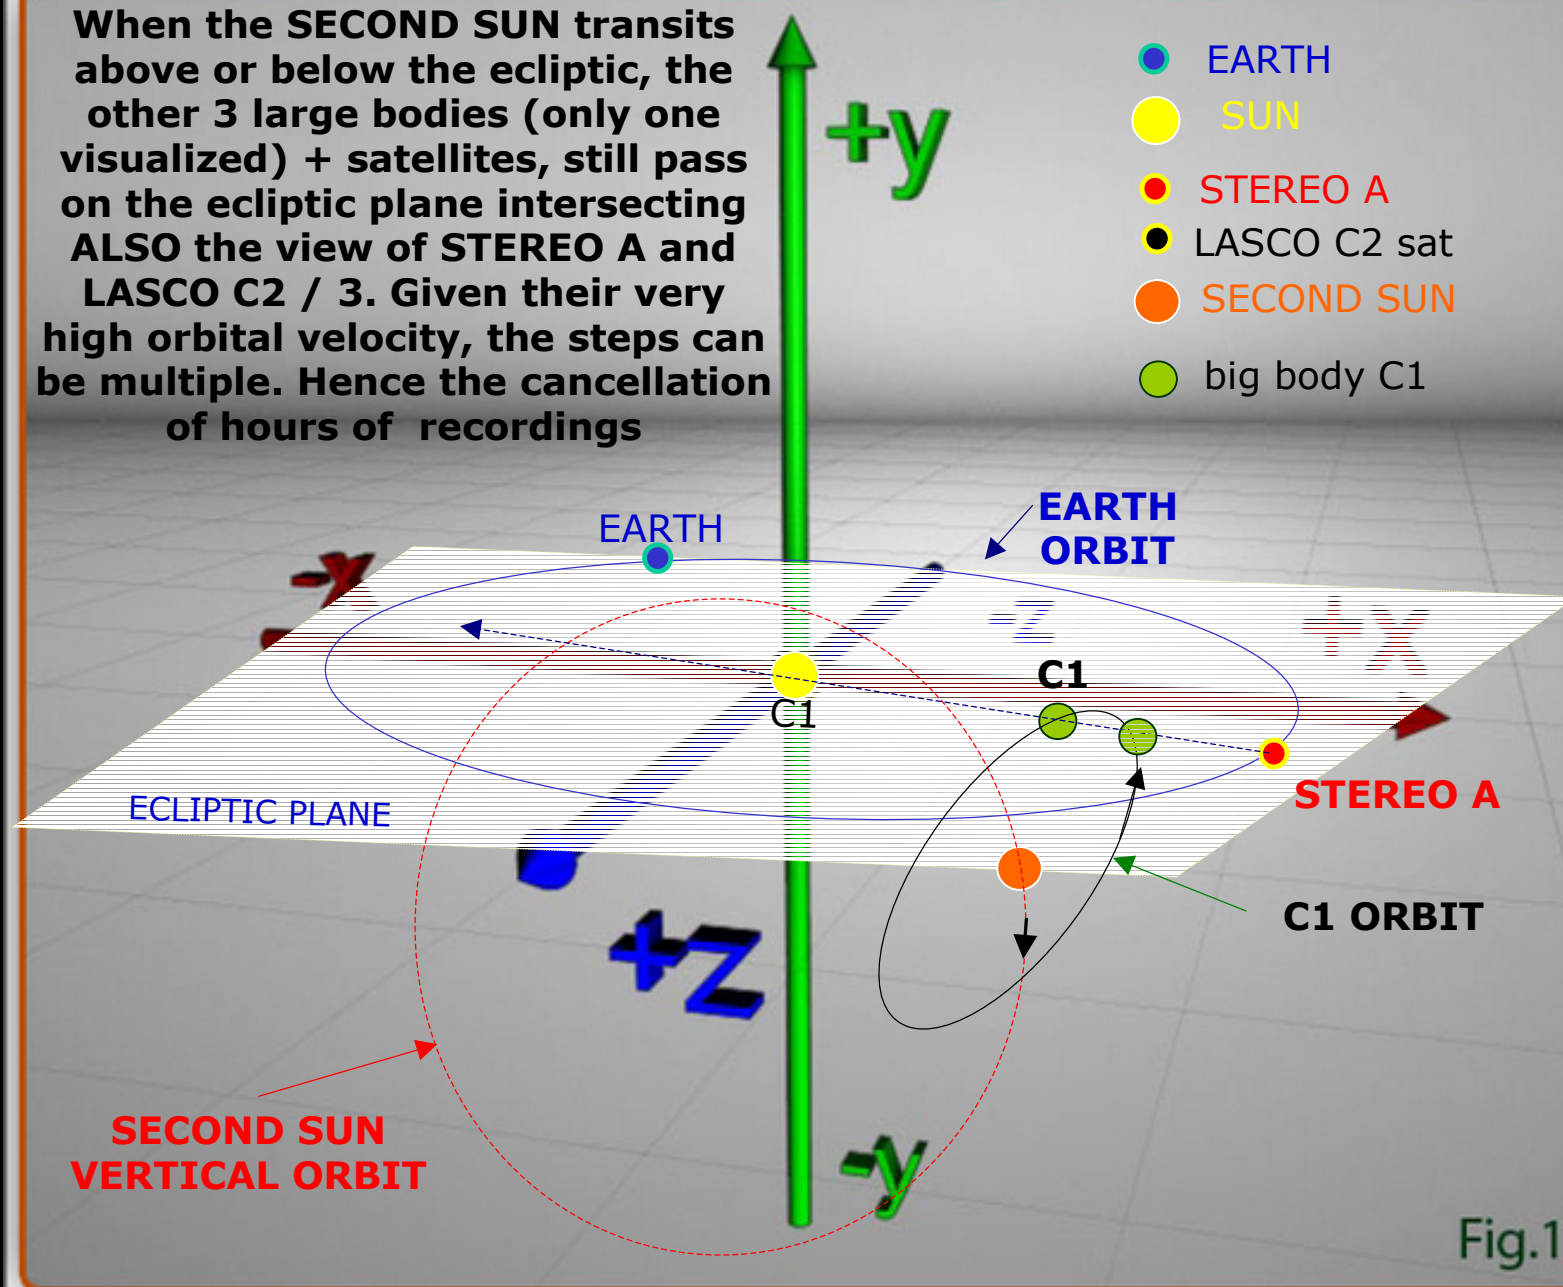

Fig.1

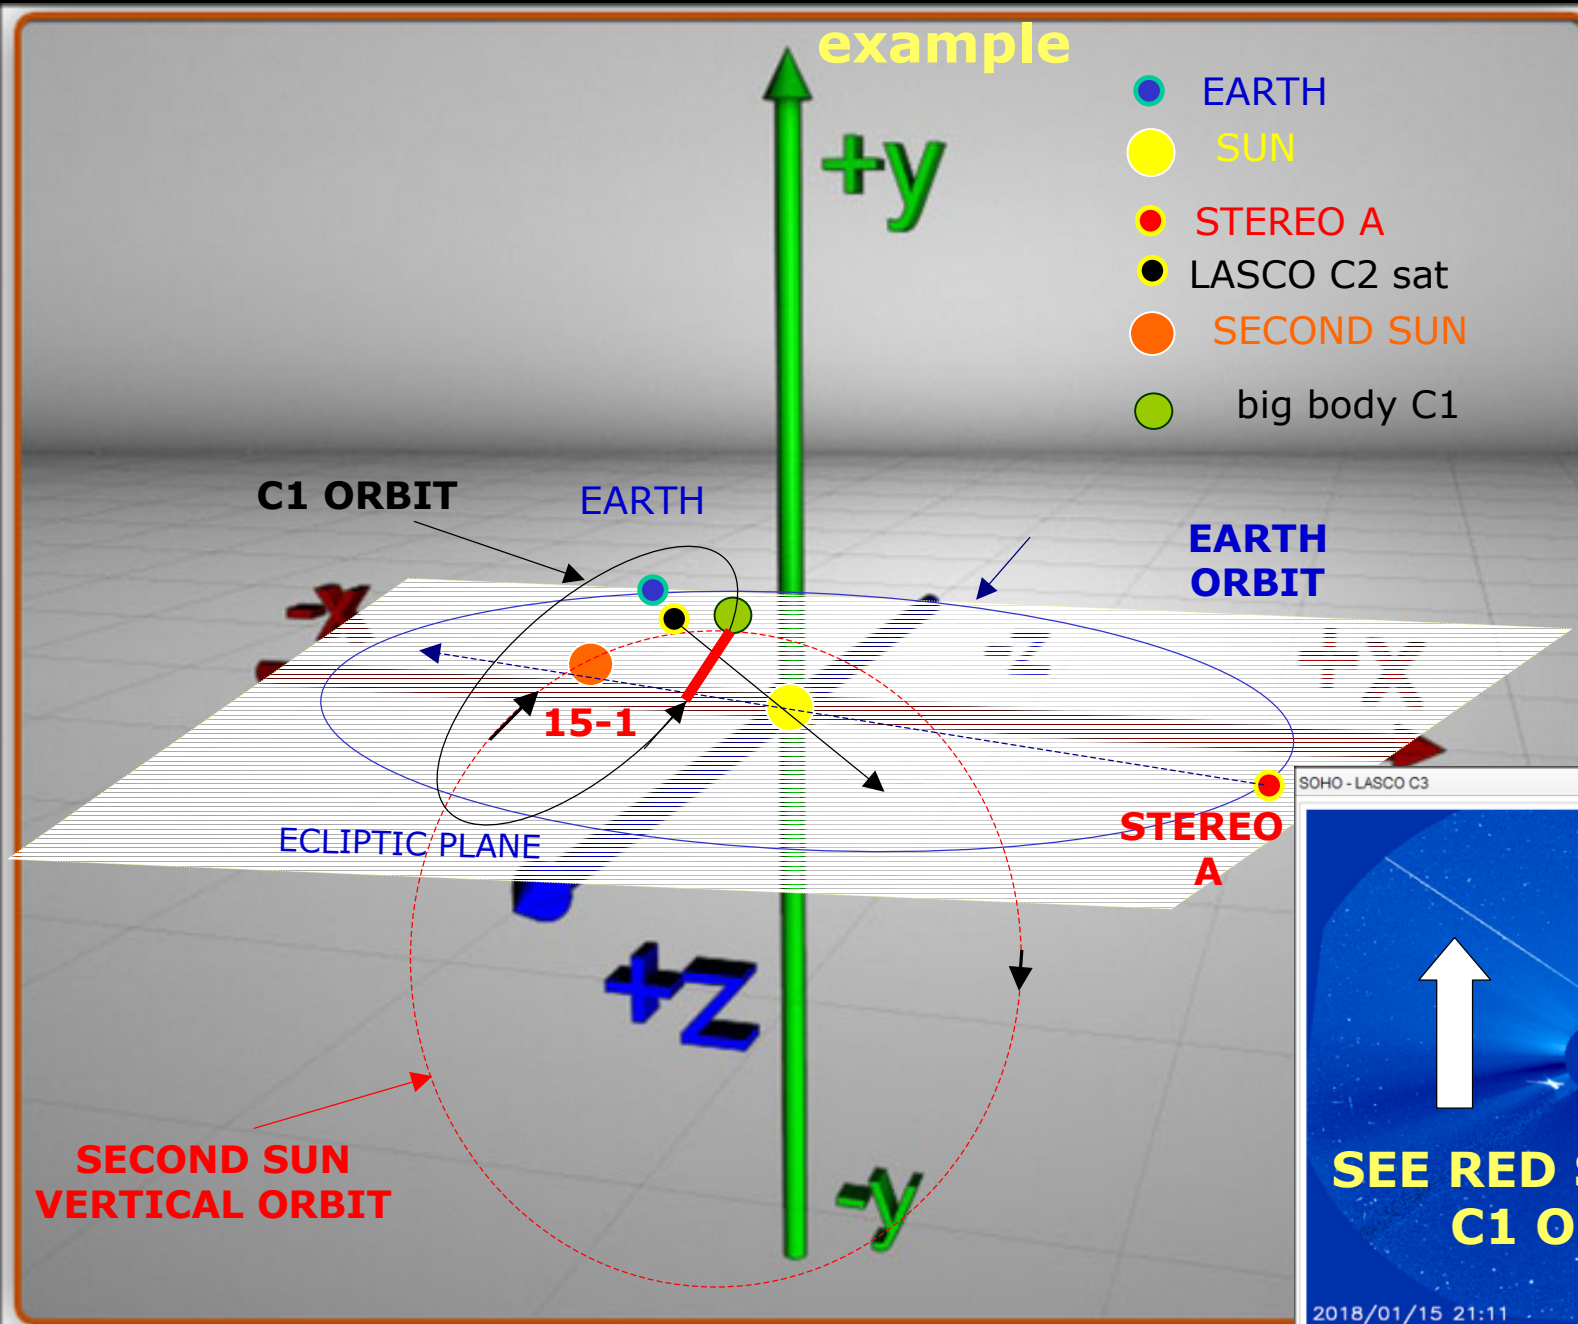

**It is also possible that these bodies are taken over by LASCO C3 while Stereo A takes over the S.S.- see**

# SECOND SUN BIG BODIES

This is not the place to check all the steps, also because those who think they hold the truth, delete the frames, and the truth, however, does not have it. They are in the ball and know less than us. What matters to us is to understand what Heaven is warning us about. One thing is certain: the 3 GREAT BODIES C1, C2 and C3 are also repropose here by the Angel crop circles

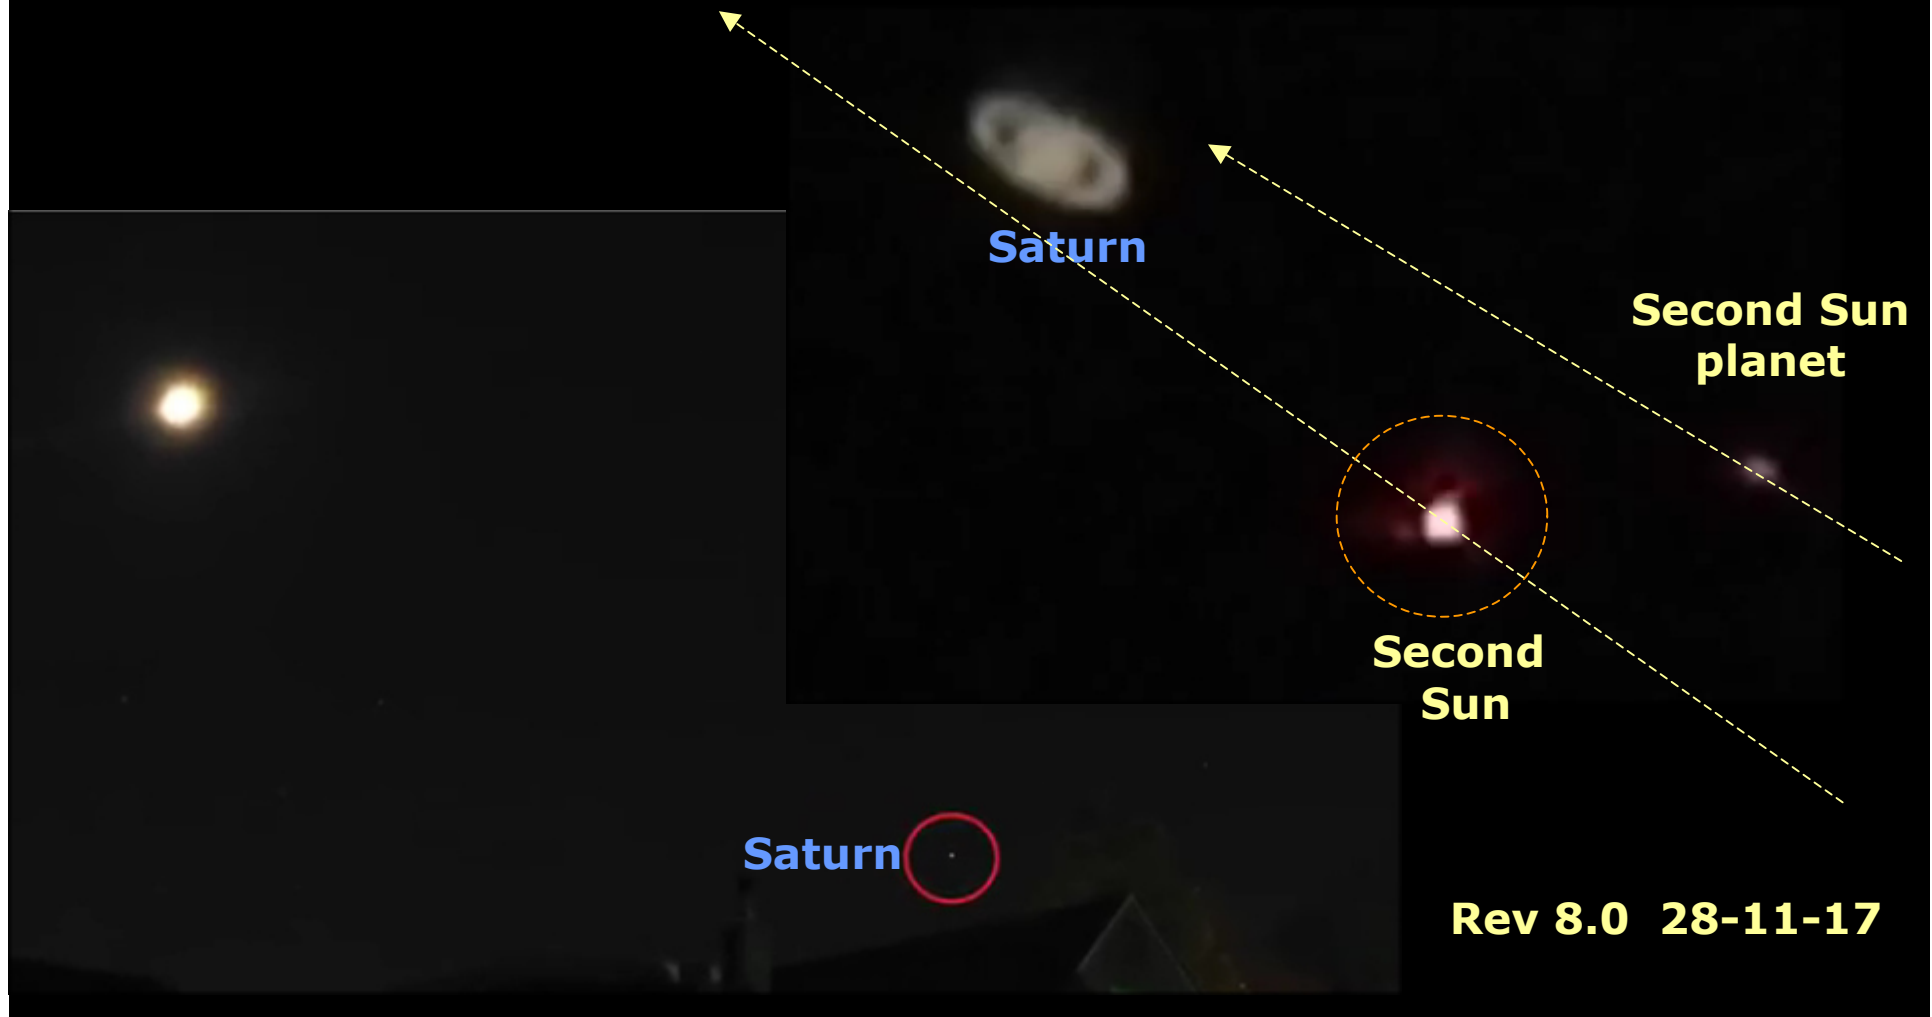

The approximate distances of the 3 GREAT BODIES C1, C2 and C3 to the S.S. are somehow obtainable from the passages in front of STEREO A, interpolating the position of the SECOND SUN. These, however, seem to be reduced for the 10-10-2019 date. Given the roundabout will be very dangerous bodies for the EARTH, especially the 5 satellites

**Let's check if STEREO A could resume the transition from its position of 120 °**

OHIO Position

## From above the Ecliptic plane

**SUN JUST at SUNSET - Saturn already visible just above the horizon. The passages visible from STEREO A can only be those in blue (in the 4th field at the equator level)**

### 2 considerations:

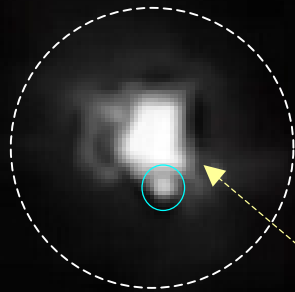

- 1 - The correct passage is the one indicated with the CELESTE, that is seen from the EARTH, it passes behind the SUN because the satellite in tow is always illuminated.
- 2 - It is possible to calculate approximately the size of the central body and of the satellite considering a distance of about 1 U.A.

saturn  
26-10-17

**Calculation of approximate dimensions of the 2 bodies in the 26-10-17 passage in OHIO. The Saturn reference simplifies the calculation. 90/5000 In the second explosion shows a diameter of 3.7 times**

diameter 3,7 – Distance about 1 U.A.  
(second explosion)

satellite diameter 0,6  
Distance about 1 U.A.  
(second explosion)

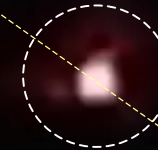

diameter 1,1 – Distance 10 U.A.

satellite diameter 0,6

diameter 1,9 – Distance about 1 U.A.  
(first explosion)

**Frame 37**

Data e ora

Data e ora		Giorno giuliano		
2017	- 10 - 26	19	: 32	: 49

# ORBITAL SPEED CALCULATION

The big body C2 satellite runs the Distance of about  $0^\circ 29'$  in 1.25 seconds (75 frames).

We can approximate the speed of C2 to the satellite itself. To do a ROTATION THEORICS at the Distance of 1 U.A. it would be enough to make the appropriate proportion

$$360^\circ : x = 0^\circ 29' : 1.25 \text{ seconds}$$

$$21600' : x = 29' : 1.25 \text{ seconds}$$

$$x = 931 \text{ seconds} = 15 \text{ minutes and } 30 \text{ seconds}$$

The ORBITAL speed depends on the size of the orbit. If the Radius were 50 mil / km (as in the GRAIN WHEAT) and approximating to a circular orbit we will have that the circumference is worth 314 mil / km made in 932 seconds which means

$$33.700 \text{ Km /seconds}$$

which is not surprising because the steps on the satellite, when the BIG BODIES are resumed last less than ONE FRAME satellite (17 seconds) and the view of the satellite is  $8^\circ$  ( $480'$ ) - which means:

$$29' : 1,25 \text{ seconds} = 480' : 21,08 \text{ seconds} !!!$$

# Comet star crop circle - MAY 2019

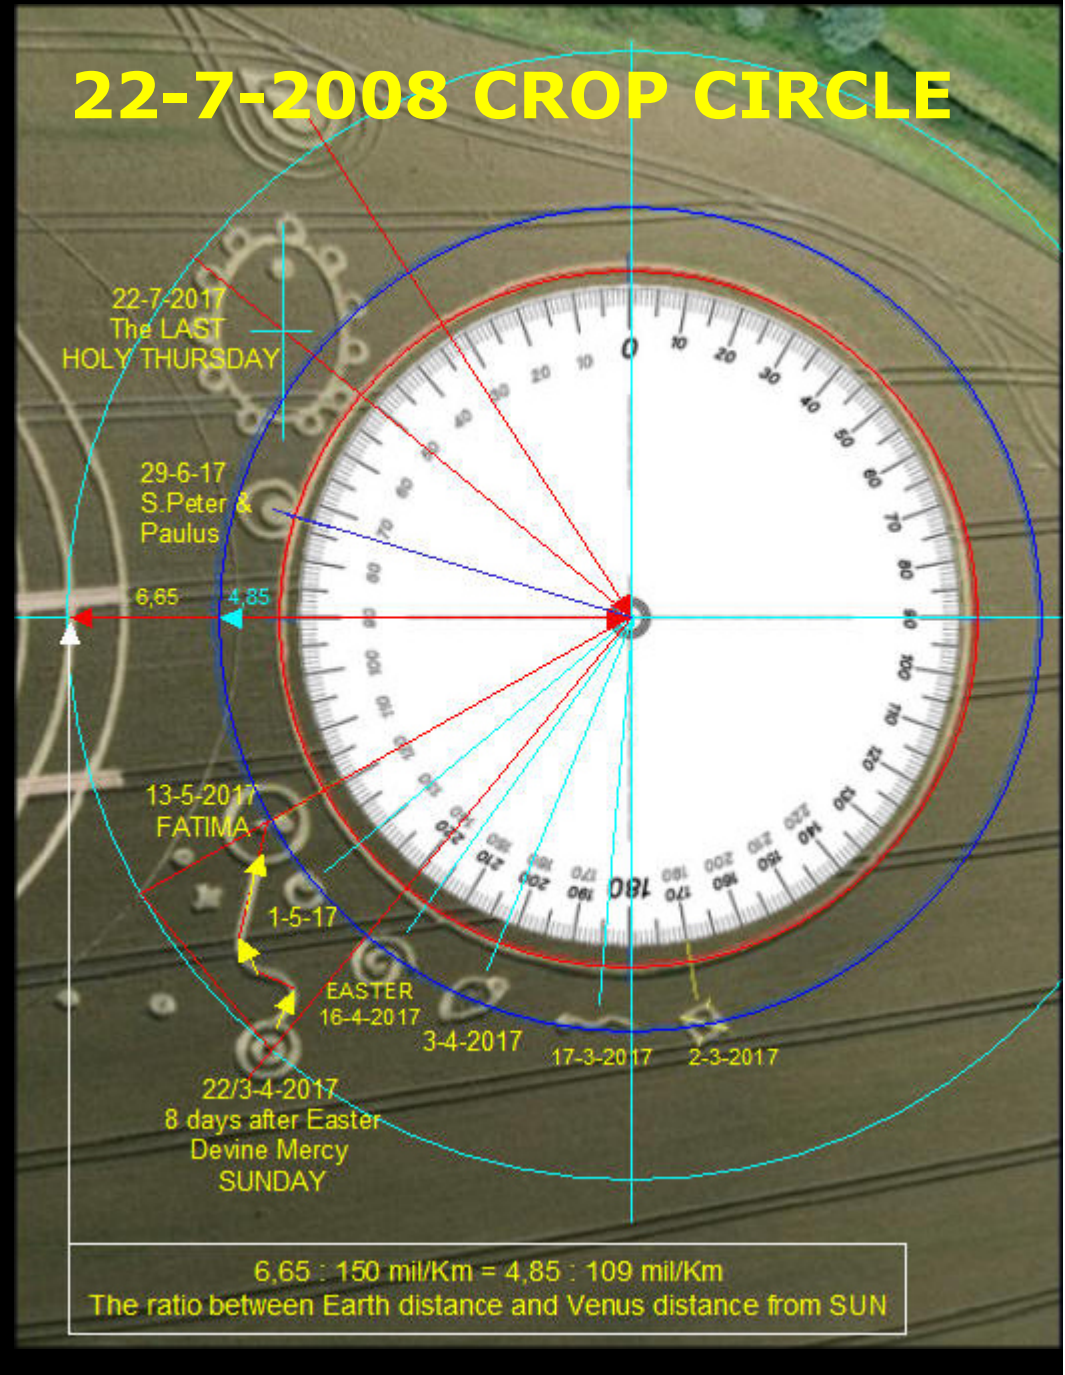

**8th square** : the CROSS in the sky that anticipate the GREAT WARNING day

8

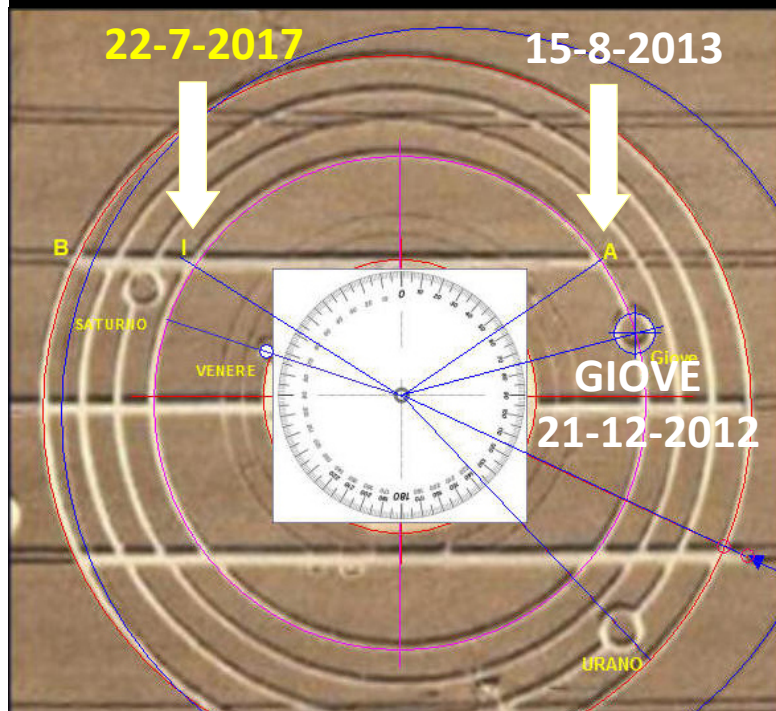

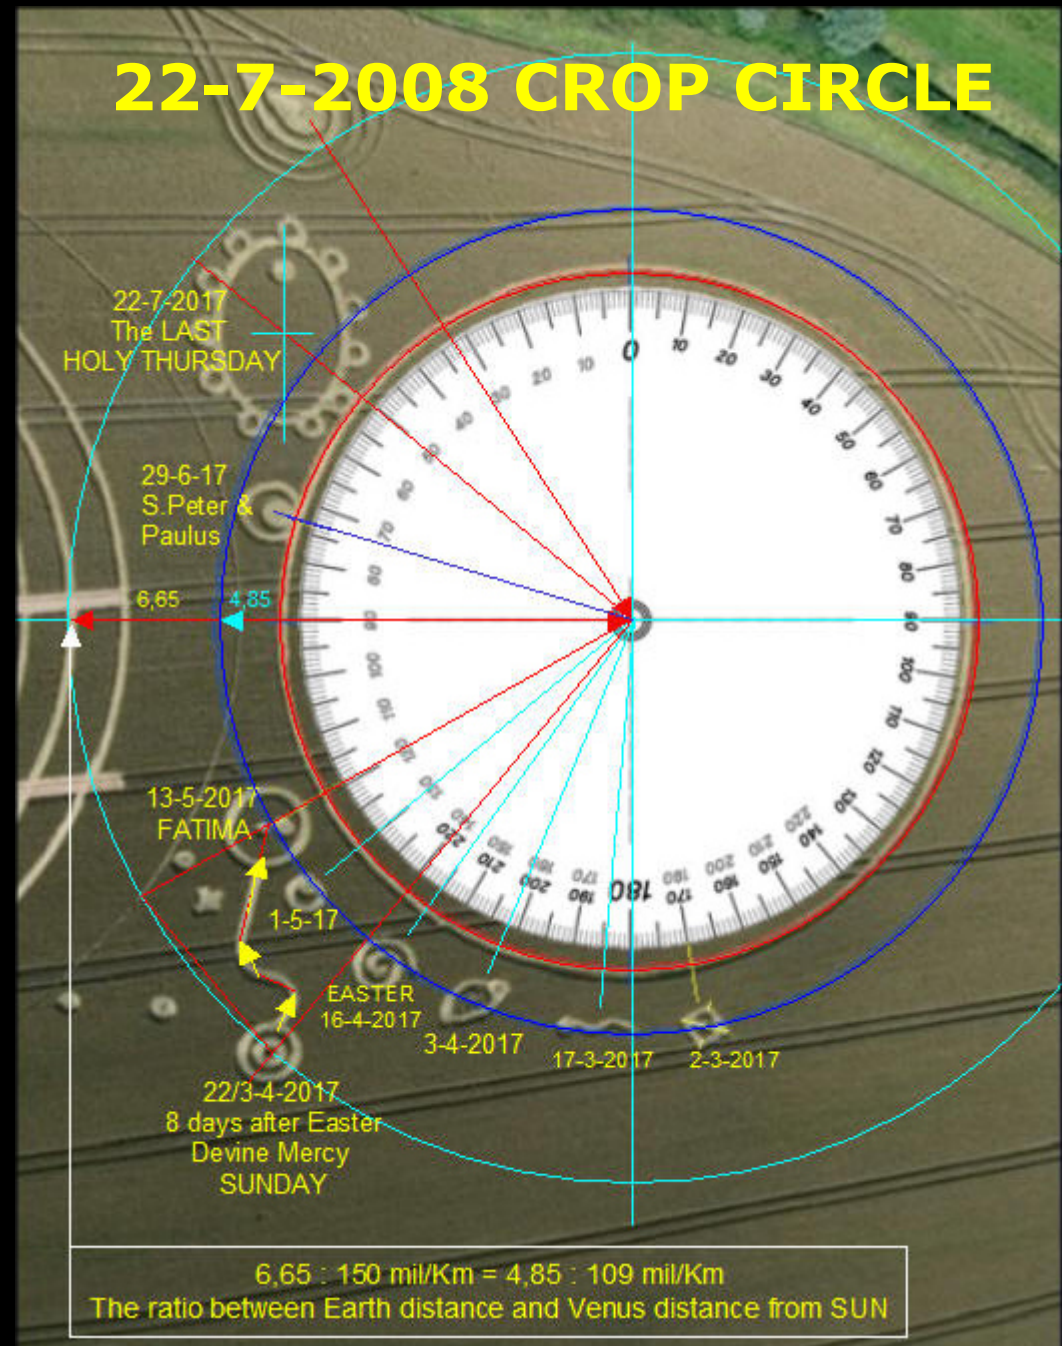

The plan in perspective, and shattered, indicates the bottom of the EARTH  
Respect the CROSS high up in the sky: THE DESTRUCTION

In 2014 it was a difficult task to find the dates, when we still did not know what it was happening, or even what the year was. It took about 4 or 5 months between astronomical calculations, the relationships between Venus and EARTH shown here, and the relationship to THE END OF THE TIMES. The SECOND SUN that could crash toward the date of Jesus Christ LAST DINNER, where the orbit calculations were possible only through data to be obtained from CROP circles. Calculations still available here also downloaded from NASA, Russians and the CHINESE as well as by the VATICAN and others.

**The 22-7-2008 CROP CIRCLE showed the 22-7 as a reference to recover the day 13 May CENTENARY of FATIMA. Sign for Catholics. For those who did not follow, the reference came from the date of the circle and the indication of the date obtained from the first part of the CROP circle drawn on 15-7-2008 on Jupiter orbit: ITS POSITION to 22-7-2017**

## 22-7-2008 CROP CIRCLE

**THE REFERENCES THAT EXITED HERE ARE ALL  
CATHOLIC REFERENCES:**

**April 3: the crucifixion of Jesus Christ**

**April 16th: Easter 2017**

**April 22: Manifestation of the Lord Jesus**

**1 May: Saint Joseph worker**

**May 13: 100th anniversary of FATIMA**

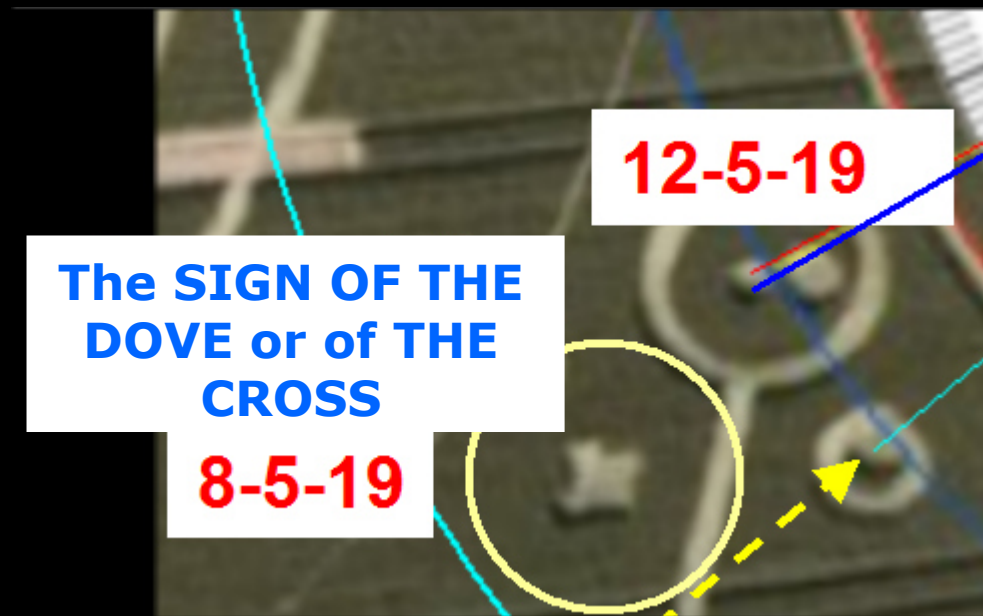

**June 29: St. Peter and Paul**

**Prophecy exists only in Catholicism through the  
HOLY SPIRIT EFFUSIONS. The dates indicated had to  
be from Catholic point of view to start the  
understanding of the END OF THE TIMES. All the rest  
are lies**

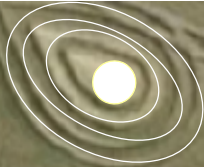

## let's tune up the understandings

Now the 22-7-2008 CROP CIRCLE has a different reference: the now famous sign of the DOVE or the CROSS referred to the GREAT WARNING promised by Jesus Christ to Saint FAUSTINA Kowalska (CATHOLIC) which is predicted for 12- MAY-2019

You do not want to break the hair in 4, the calculation will be anyway approximate to the comprehension of the writer. Now we move the references of only one day

**SECOND SUN**

And his 3 great celestial  
bodies that turns around him  
With elliptical orbit

# 22-7-2008 CROP CIRCLE

**21-7-2019**

**13-5-2019 – 102° FATIMA  
The SUN MIRACLE day**

**12-5-2019 – 102°  
FATIMA  
EARTH e Venus**

**The DOVE or  
CROSS sign**

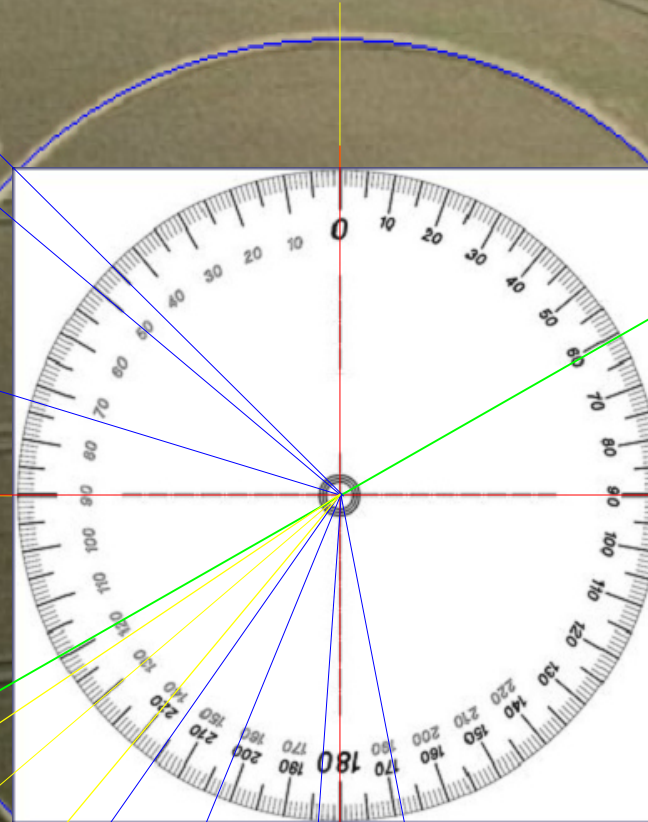

**8-5-2019**

**30-4-19**

Meteor  
coming

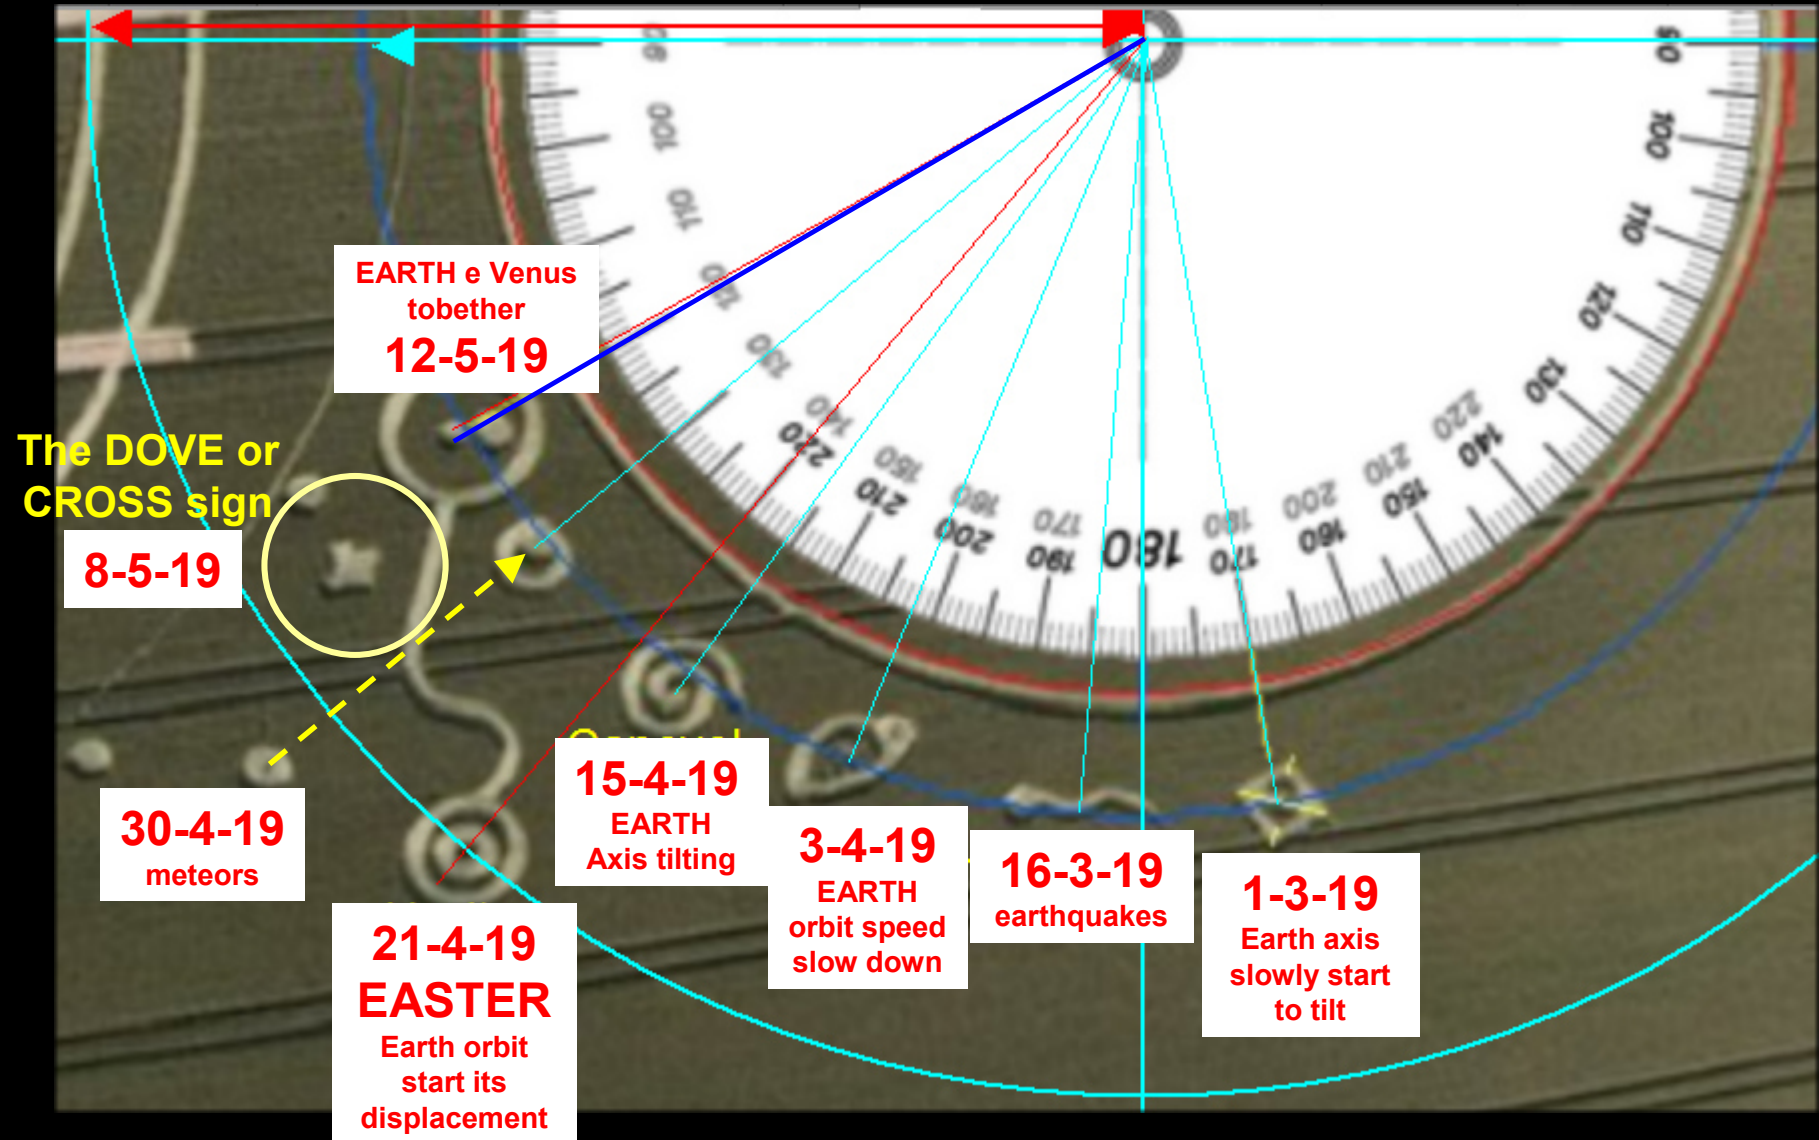

**15-4-2019  
Axis tilting**

21-4-2019 - EASTER	Orbit speed slow down	Eathquakes 16-3-2019	EARTH start to tilt
Orbital displacement	2-4-2019		1-3-2019

# 22-7-2008 CROP CIRCLE

SINCE 2017 REFERENCES ARE SHIFTED BY ONE DAY

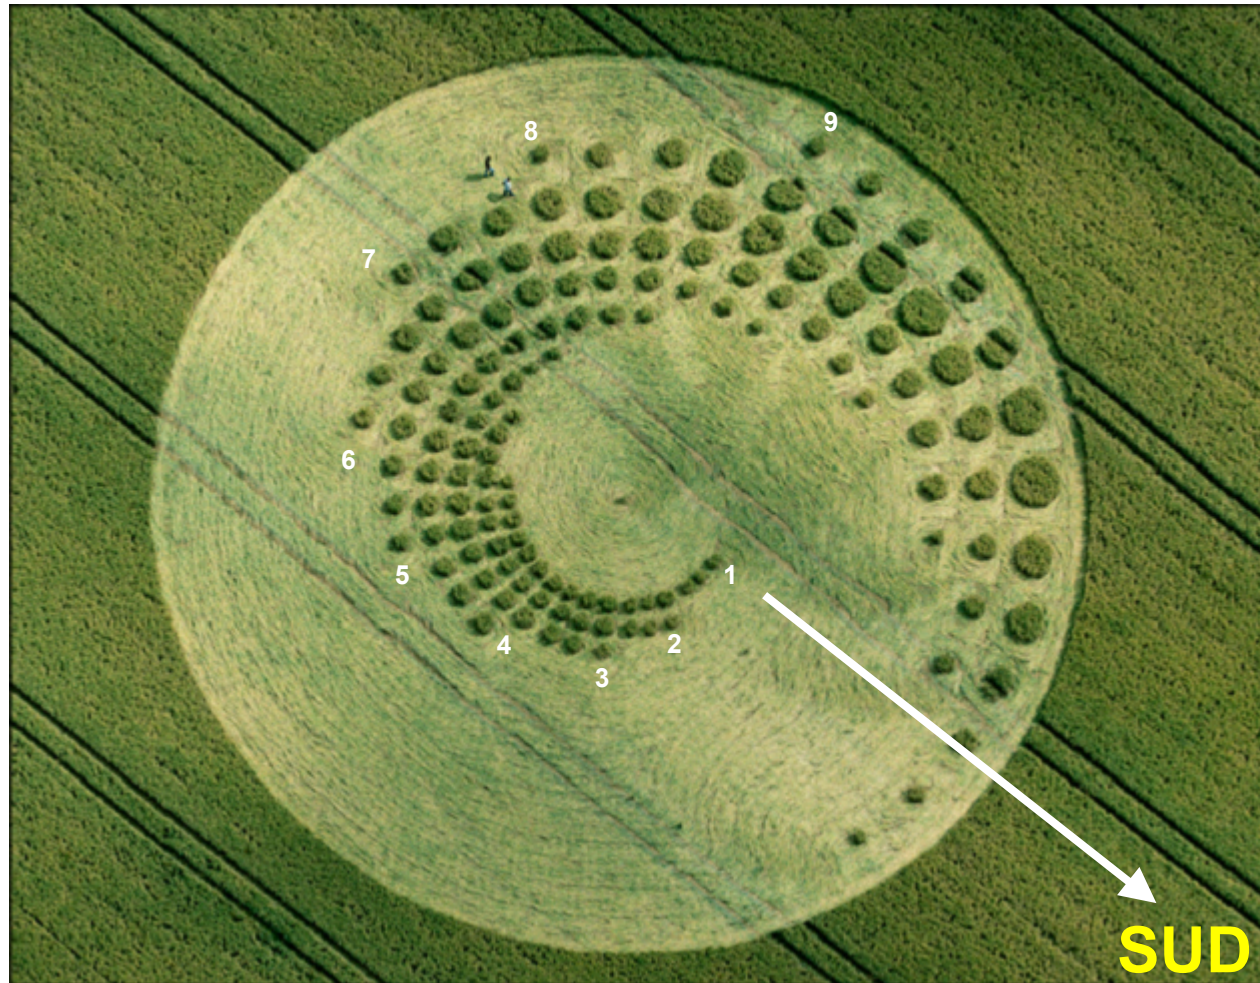

16 July 2014 CROP CIRCLE supplies several references:

**1 - 155 / 158 final days !!!**

**2 – how will vary hours during days**

**3 – how will increase temperatures**

# 16 July 2014 CROP CIRCLE

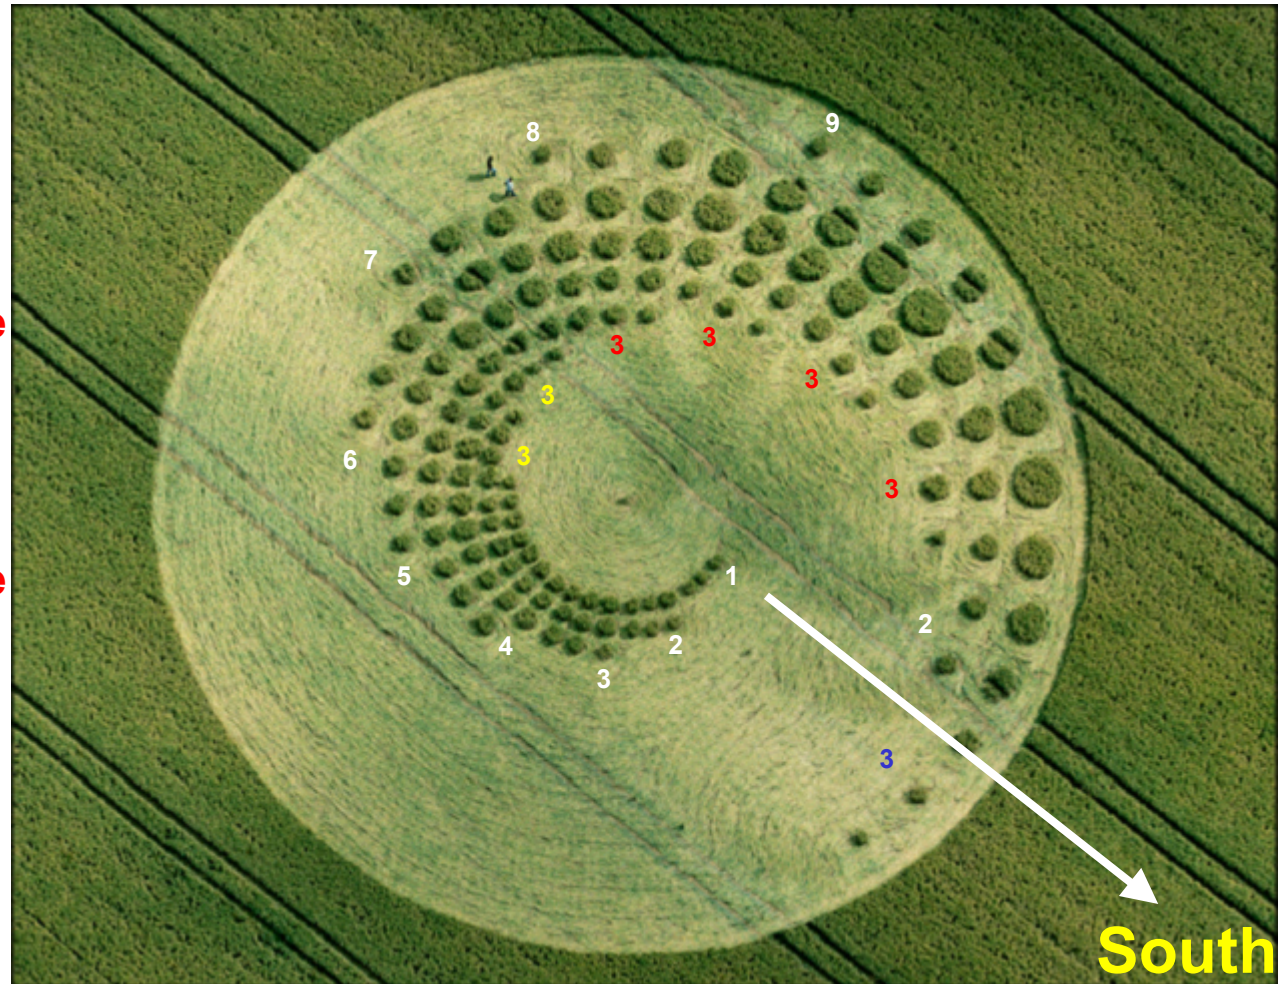

## Let's analyze the 158 final days

Let's consider the internal 3 x 16 DOTS (16 x 3 = 48 in the internal side with 3 dots spacing per each semicircle = 6 + 48 = 54)

then 4 semicircles of 15 DOTS (15 x 4 = 60 in the internal side with 3 dots spacing per each semicircle = 12 + 60 = 72)

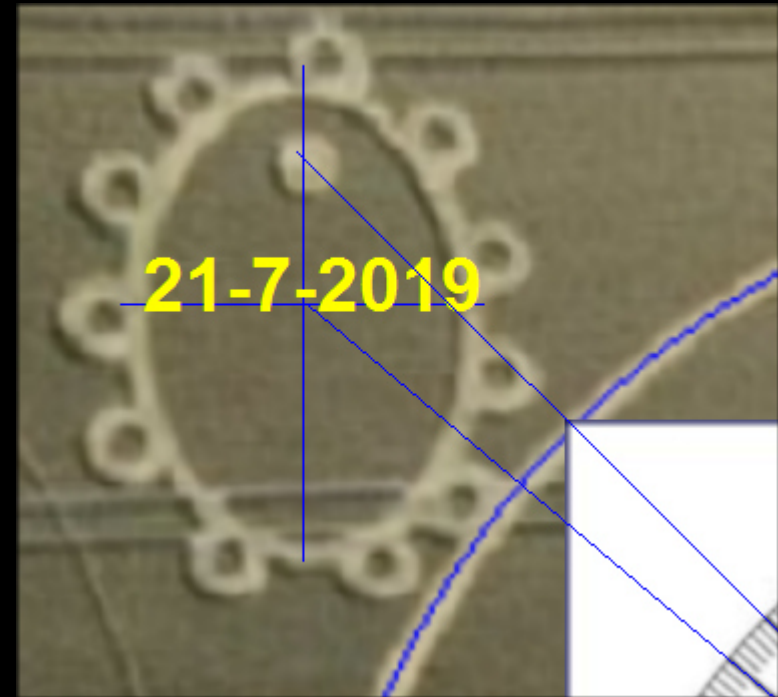

Then 1 semicircle of 14 DOTS (14 x 1 = 14 in the internal side with 2 dots spacing = 2 + 14 = 16)

At last 1 semicircle of 13 DOTS 13 x 1 = 13 in the below side spaced by 3 DOTS = 3 + 13 = 16

**TOTAL = 54 + 72 + 16 + 16 = 158**

## 2 crop circles lead us to 21 JULY 2019

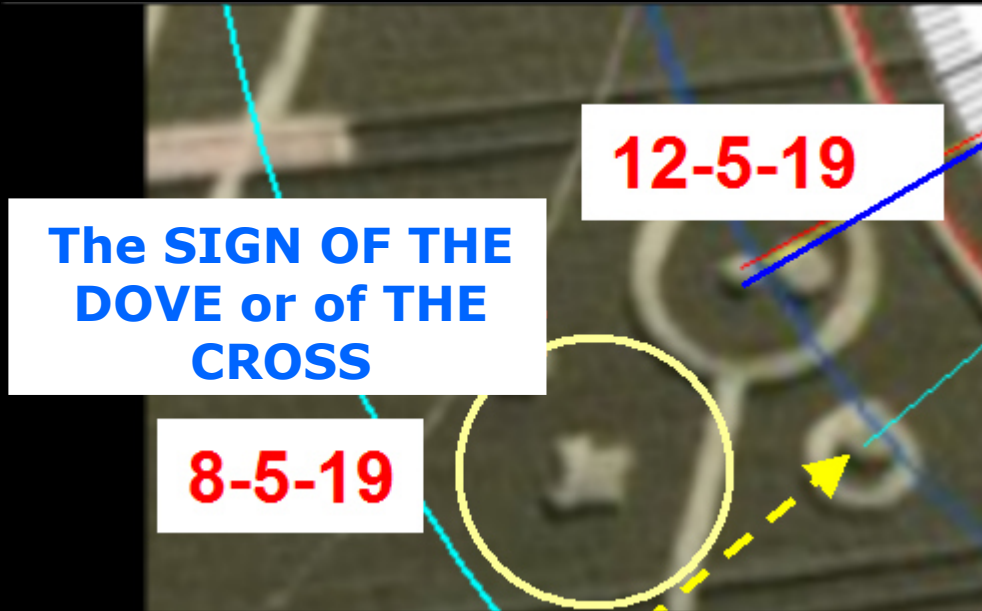

**The date of 21 JULY COMPARE ALWAYS  
IT IS AN IMPORTANT WARNING**

**THE LAST MOON of BLOOD is 21 JANUARY + 6  
months**

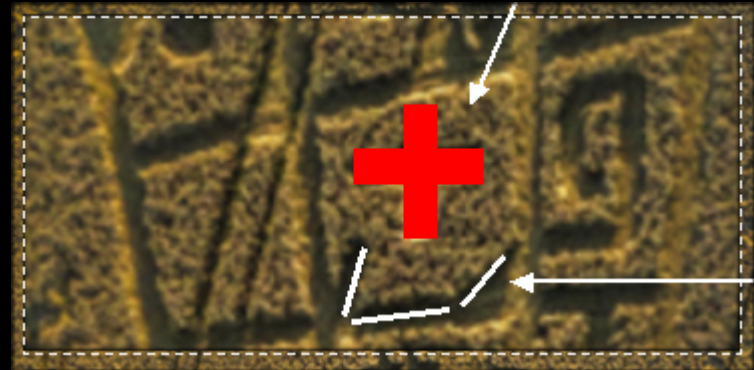

**07/21/2019**

**Will the moon darken forever?**

# 2 crop circle ci portano all' 8 Maggio con lo stesso segno nel cielo

**8th square** : the CROSS in the sky that anticipate the GREAT WARNING day

**2 years earlier, the same sign appears in Medjugorje in the same period 2-May 2017 on the hill of apparitions**

**Seems all the dots get together**

**When is the MANIFESTATION of JESUS CHRIST  
in the CATHOLIC LITURGY?**

**EPIFANY – 6 JANUARY**

**And which would be the best suggestion to find  
out the**

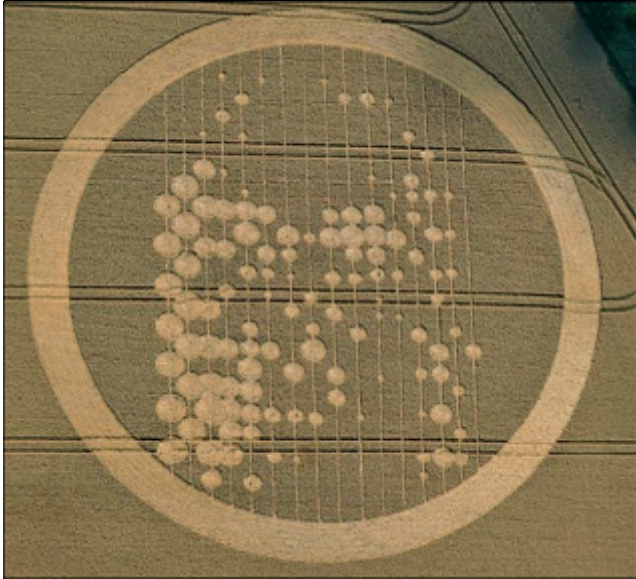

**The NEW MANIFESTATION DAY?**

**The GREAT WARNING?**

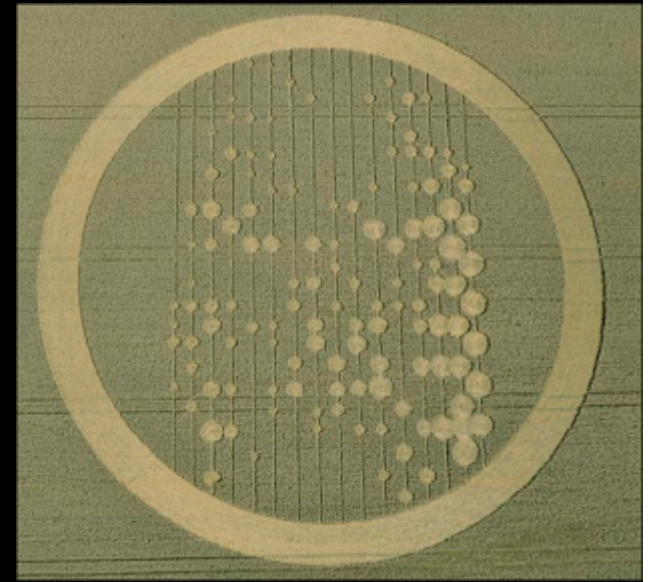

**22-7-2008 CROP CIRCLE**  
**124 and 127 DAYS**

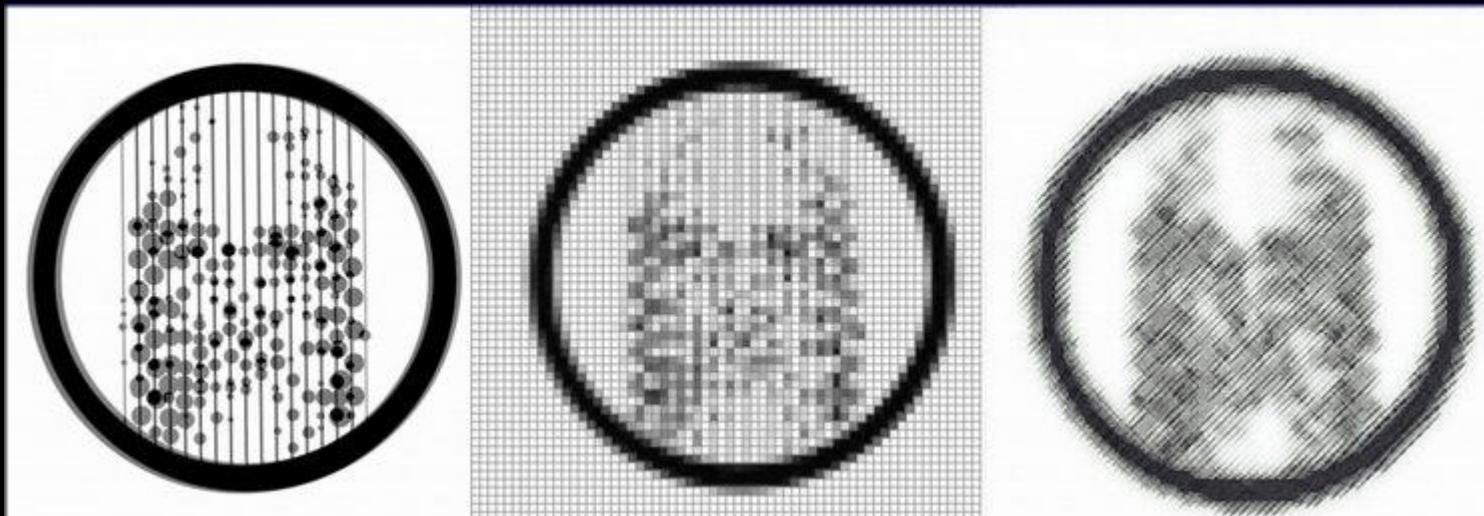

**124 DOTS**

**127 DOTS**

**6-1-2019 + 127 = 13-5-2019 FATIMAs DAY**

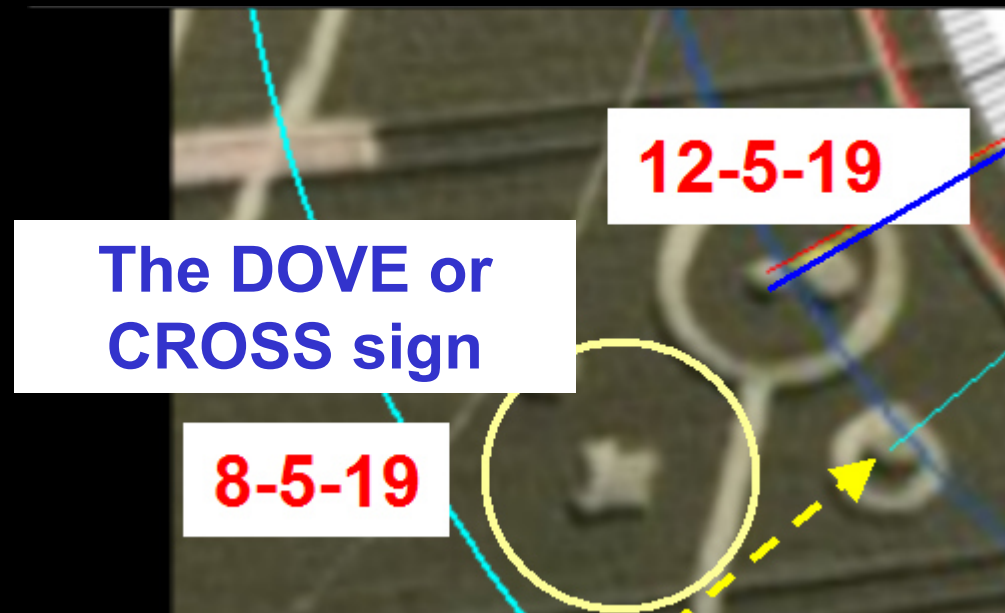

# Seems all the dots get together

6-1-2019 + 124 = 10-5-2019

The timing of the cross in the sky

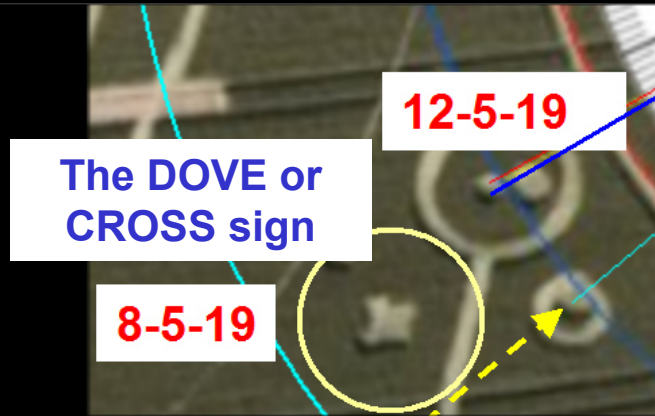

6-1-2019 + 127 = 13-5-2019 - FATIMAs

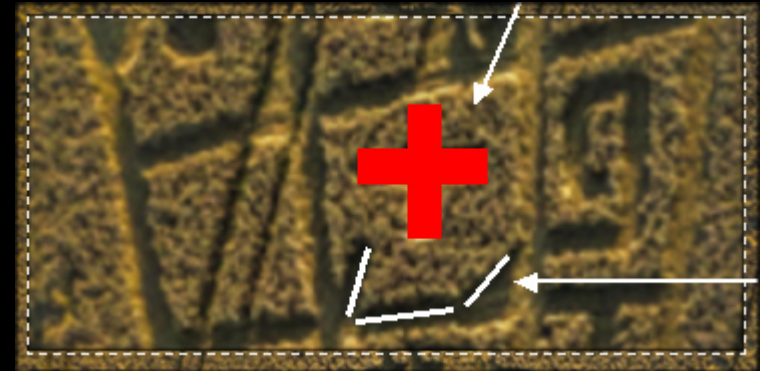

**Thus JESUS WILL APPEAR IN GREAT WARNING  
SUNDAY before the FATIMAs 102nd CENTURY on May  
12th-2019**

# The sign in the sky of May 8 with 158 days brings us to 13 october 2019

is it a matter of case ?

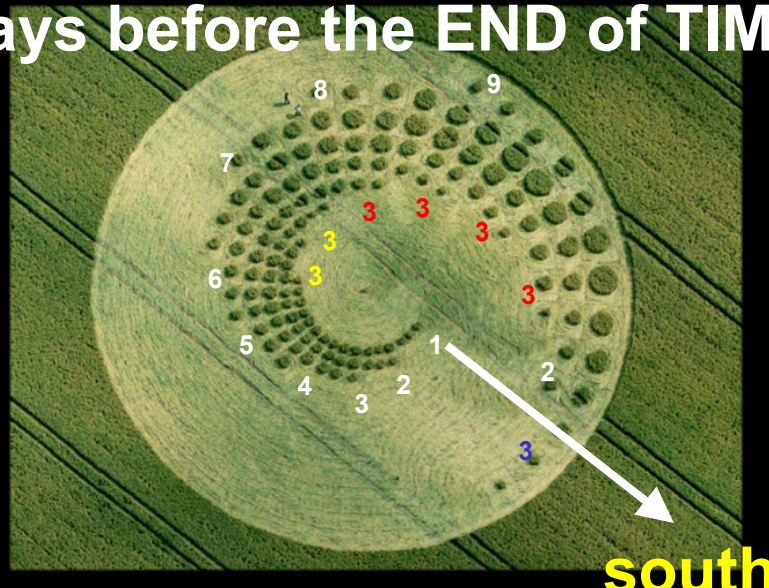

08/05/2019

158

13/10/19

the 158 final days points to SOUTH: the SUN 3 days before the END of TIMES

**Calculations and suggestions and  
prophecies lead to :**

**10-10-2019: the crash of the 2 SUNs  
And the start of the 3 days of darkness**

**Friday 10-10-2019**

**Prophecies talks about a "Friday"**

**13-October-2019**

**102° FATIMAS anniversary of  
the MIRACLE of the SUN**

**The Holy Virgin Mary will keep hers safe**

**The triumph of the immaculate heart of Mary**

**The elevation of Elects**

**Anguera: 3.220 - 29 September 2009 In the triumph of my Immaculate Heart, those who welcome my messages will be protected and will experience great joy**

**The true children of God will be protected in a safe place**

# **ELEVATION of ELECTS**

## **15/25 May 2019**

### **22 & 24 June the last call**

## **The triumph of the immaculate heart of Mary**

Matthew 13 - [38] the field is the world, the good seed the children of the kingdom. The weeds are the children of the evil one, [39] and the enemy who sows them is the devil. The harvest is the end of the age, and the harvesters are angels. [40] Just as weeds are collected and burned (up) with fire, so will it be at the end of the age. [41] The Son of Man will send his angels, and they will collect out of his kingdom all who cause others to sin and all evildoers. [42] They will throw them into the fiery furnace, where there will be wailing and grinding of teeth.

**[43] Then the righteous will shine like the sun in the kingdom of their Father. Whoever has ears ought to hear.**

**For those who remain in the  
last days of the GREAT  
TRIBULATION there will be a  
divine help:**

**The calendar of the 155/158  
final days that will be given  
as soon as available.**

**The same applies to the  
projection of temperatures**

**13 OCTOBER 2019**

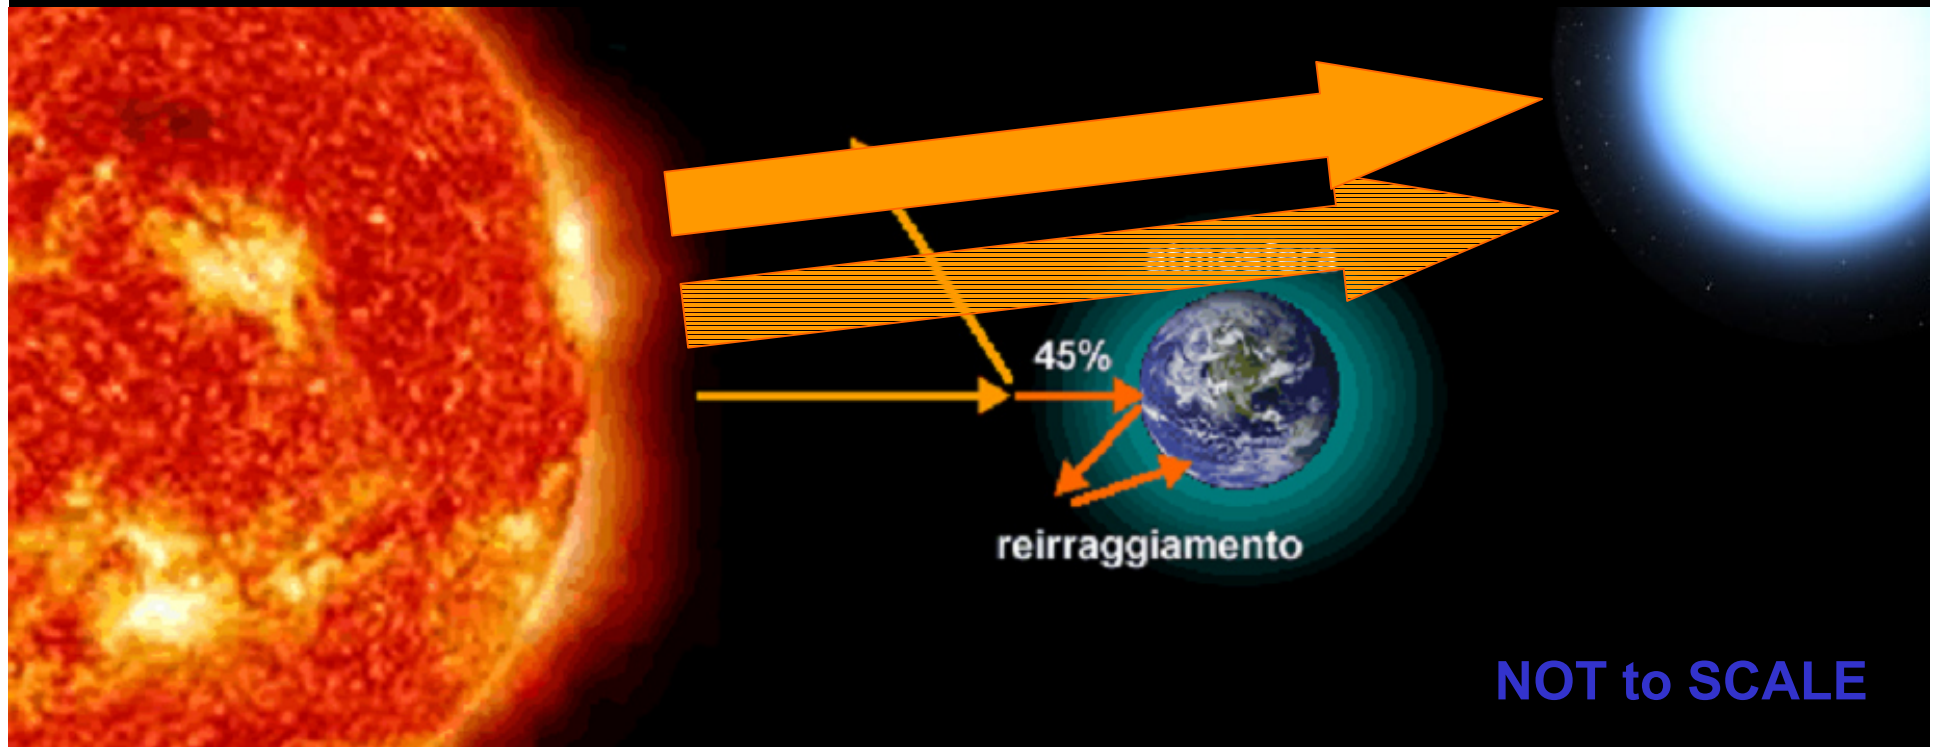

**The SECOND COMING  
Of GESUS CHRIST**

## ANGUERA message

**The midday SUN will be considered more important than the evening SUN.  
2.539 - 24.06.2005**

**clear MESSAGE - THE EARTH rotates and watches the SUN during the  
day and the stars during the night**

**But if you see another SUN in the evening it means that this is on the  
side of the night. Slightly moved in the evening and not in the night.  
THANKS GOD**

**NOT to SCALE**

## **ANGUERA MESSAGES**

**The day will come when EARTH will lose its natural movement; the SUN will turn into darkness and nothing will be like before. 2.787 - 18.01.2007**

**A light will never seen by men will come. It will be visible to human eyes and will contribute to great changes on EARTH. 2.792- 30.01.2007**

**the impact of two giants in the universe [SUN and SECOND SUN] will cause great damage to EARTH. Fire will fall from the sky and many regions of the EARTH will be reached 3.113 - 24/01/2009**

**Men will see something like a SUN that will remain visible in the sky for long hours. All eyes will see 2.510 - 16.04.2005**

**EARTH will be covered in darkness. Darkness will come out of the immense light. A mystery existing in the great bright light will be revealed. 2.793 - 31.01.2007**

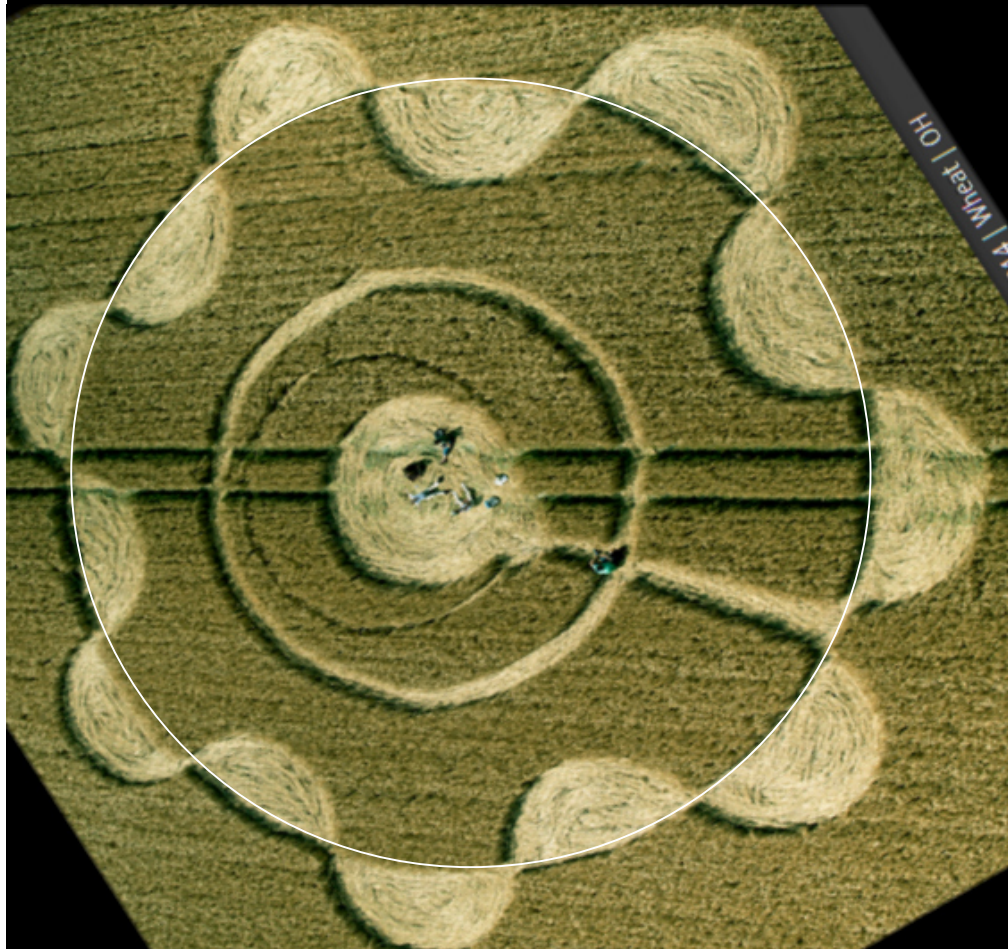

**The fire will burn the light and there will be a big explosion. 2.540 - 25.06.2005**

**The day will come when the EARTH will be shrouded in dense darkness. The men will plead for help and will not know where to go 3.186 - 13 July 2009**

**The ordeal of mankind will start on a friday, but then the victory of God will come and you will be led to the great day of victory 3.279 - 13 February 2010**

# 29-7-2014 CROP CIRCLE

shows 6 and  $\frac{1}{2}$  "orbits" vertical on the ECLITTICA - above / below

# IMPORTANT CONSIDERATION

The STEREO A and LASCO satellites usually resume the 3 GREAT BODIES and their planets / satellites and leave the view within a few seconds, usually within a FRAME (a frame consists of 9 SHOTS for satellites and a shot for the big body). But when these are visible, due to their different orbits they are present on several frames for hours.

These, if possible normally are deleted to hide them to others.

THIS EXAMPLES EXPLAIN AL LOT

<b>26-09-17</b>	<b>17:39 / 21:29</b>	<b>3 hours missing</b>
<b>18-11-17</b>	<b>06:54 / 09:24</b>	<b>3 hours missing</b>
